DEPARTMENT OF LAW

December 29, 1952.

The Finance Committee of Council

Gentlemen:

Under date of December 3, 1952, you sent to this Department Bill No. 1803, an ordinance transferring \$3,000 from Code Account No. 1490, Misc. Service.

to Code Account No. 1494, Materials, Bureau of Traffic Planning, Department of Public Safety.

This bill proposes to transfer \$6,000 from Bond Fund No. 176 to the Bureau of Traffic Planning for the payment of cost of purchasing cable, the life of which will exceed 20 years.

One of the questions submitted to the voters when the \$21,000,000 bond issue creating Bond Fund No. 176 was authorized, was whether or not the debt of the City should be increased to purchase, install and replace traffic control equipment. This question was answered in the affirmative by the voters.

The purchase of cable by the Bureau of Traffic Planning clearly comes within the question submitted to the voters, and an expenditure for this purpose from the bond fund is authorized.

Very truly yours,

J. F. McKenna, Jr.
First Assistant City Solicitor.

Which was read, received and filed.

Mr. Davis moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken, agreeably to law, and were:

Ayes:—Messrs.

Counahan	Rodgers
Davis	Schifano
Dinan	Gallagher (Pres't).
Fagan	

Ayes 7. Noes none.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also

Bill No. 1816. Resolution au-

thorizing the issuing of a warrant in the amount of \$37,025.00, with interest at the rate of 6% per annum on \$37,025.00, from April 15, 1952, to the date of said warrant, in favor of the United States of America Housing and Home Finance Agency, being the return of amounts advanced to the City of Pittsburgh for plan preparation of a Public Works Garage and Warehouse, which project has been indefinitely postponed; charging \$31,250.00 to Code Account PA 36P-1058 and the remaining \$5,769.00 and the interest, to Bond Fund No. 176.

In Council, December 8, 1952, bill read and laid over pending receipt of approval by the Department of Law.

Which was read.

Also

No. 2047.

DEPARTMENT OF LAW

December 23, 1952.

Committee on Finance

City Council

Gentlemen:

Under date of December 3, 1952, you inquired if funds in the sum of \$37,025.00 for plans of a combined garage and warehouse might be appropriated from Bond Fund No. 176. Bill No. 1816, transferring the funds, was attached to your letter.

One of the questions submitted to the voters when the Bond Fund No. 176 was created was whether or not \$14,800,000 could be expended for certain projects, among which is the following:

" . . . the construction and equipment of a central warehouse and garage."

This question was voted affirmatively at the general election. Obviously, the construction of the garage and warehouse about which you have inquired falls within the above language.

It follows that the preparation of plans for such a structure may be paid for out of the same fund. Even though the plans are not immediately carried out, the cost of preparation of the plans may be charged to the fund.

Very truly yours,
J. F. McKenna, Jr.,
First Assistant City Solicitor.

Which was read, received and filed.

Mr. Schifano moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second and third times, and upon final passage the ayes and noes were taken, and being taken were:

Ayes:—Messrs.

Counahan	Rodgers
Davis	Schifano
Dinan	Gallagher, (Pres't)

Ayes 7. Noes none.

And there being two-thirds of the votes of Council in the affirmative, the resolution passed finally.

MOTIONS AND RESOLUTIONS

Miss Dorothy Marick, Teacher, and class on American Government from Allegheny High School attended this Council meeting, and were welcomed by President Gallagher. At the request of the Chair, Mr. Fagan explained the procedure of Council to the class.

The Chair:

I have been informed that the Honorable William Kemp, Mayor of Kansas City, Missouri, is in the Chamber. I appoint Messrs. Weir and Wolk to escort him to the rostrum.

The Committee having performed its duty, was discharged and the Chair presented Hon. William Kemp, Mayor of Kansas City.

Mayor Kemp:

Mr. President and Members of Council: I certainly did not come here to make a speech this early in the day. I am to make one tonight, which I will make with a great deal of care because, I will be talking to people who know more about the subject than I know myself, the Allegheny County Association of Boroughs. I am supposed to tell them something about municipal cooperation. I am sure that you people here have doubtless read all the books there are on that subject.

I think anyone of you would be better qualified than I am to speak on this subject.

This kind of seems like home to see the members of Council sitting here scratching their heads over the great problems that come before our city governments for solution. Maybe you don't think so, but we have them. Traffic—I am sure you do not have any problems along that line.

I have observed and want to commend you on the great progress you are making in the elimination of blighted areas and the substitution in their place of fine, modern buildings and parkways. We are just starting one of our own that I think is going to do a lot of face lifting for Kansas City.

When we do not get around among other cities we get to thinking we are the only ones who know much about city planning and city progress and so on, and then, in my own instance,

coming here, I wake up to find out you have gone substantially farther than we have in that field.

It is a pleasure to drop in here. My old friend, Miss Anne X. Alpern, brought me in just to look around, not knowing I would be called upon to make a speech. It is a pleasure to be here and I wish you well.

Mr. Fagan moved

That the following members be excused for absence from Council and Committee meetings:

Mr. Weir on January 12 and 13, 1953;

Mr. Volk on January 12 and 13, 1953.

Which motion prevailed.

Mr. Davis moved

That the Minutes of Council of Monday, January 19, 1953, be approved.

Which motion prevailed.

And upon motion of Mr. Davis

Council adjourned.

Whereas, The Director of the Department of Public Works, Director of the Department of Lands and Buildings, and the Director of the Department of Public Health, in a letter addressed to the Mayor and the City Controller under date of January 15, 1953, have stated that an emergency has arisen in the Bureau of Water, Department of Public Works; Department of Lands and Buildings, and the Department of Public Health, making it necessary to transfer additional funds to Wage Code Accounts of the Department of Public Works, Department of Lands and Buildings, and the Department of Public Health for the payment of additional compensation to certain employees in said departments who performed emergency services for the City of Pittsburgh during the year 1952; and

MOTIONS AND RESOLUTIONS

Mr. Fagan:

Mr. President and Members of Council: For the past year an illustrious newspaper reporter and a man of the Fourth Estate, Mr. Douglas Naylor, has been requesting that I place in the record or in the Minutes of the Pittsburgh City Council the song "Old MacDonald Had a Farm." I understand that the gentleman is writing a story. We know that Doug is a farmer but we do not know whether he is a gentleman farmer or a dirt farmer, or whether he plants corn or hay or oats, but apparently he has been working on the story for a long time. In order to satisfy Mr. Naylor, I want to make a motion to place in the Minutes of Council this song so that he may proceed to write this story, and probably in the near future collect probably fifty or one hundred thousand dollars for it because it is going to be a story that will baffle the scientists of both coasts. Of course, if John Thomas had his piano here he could give me a chord and accompany me so I could sing "Old MacDonald Had a Farm."

Mr. Fagan moved

That this song be incorporated in the Minutes of Council.

Which motion prevailed.

OLD MacDonald HAD A FARM

Old MacDonald had a farm,

Ee-igh, ee-igh, oh!

And on this farm he had some chicks,

Ee-igh, ee-igh, oh!

With a chick-chick here, a chick-chick there,

Here a chick, there a chick,

Everywhere a chick-chick,

Old MacDonald had a farm,

Ee-igh, ee-igh, oh!

Continue with ducks (quack-quack), turkeys (gob-ble), pig (holnk-holnk), Ford (rattle-rattle), etc., adding and repeating all each time.

Mr. Fagan moved

That the Minutes of Council of Tuesday, February 24, 1953 be approved.

Which motion prevailed.

And upon motion of Mr. Counahan
Council adjourned.

Whereas, Article XIV, Section 13 of the Act of March 7, 1901, P. L. 20, as amended by the Act of May 31, 1911, P. L. 461, provides that all appropriations shall be made annually by general ordinance except in cases of emergency when special appropriations may

be made to meet the same; and

Whereas, The Director of the Department of Public Works in letters addressed to the Mayor of the City of Pittsburgh and the City Controller under date of February 26, 1953, has stated that another Clean-Up Campaign is scheduled for this year and, as in the past years, block by block refuse pick-ups will be made; and

Whereas, It will be necessary that the City employ additional personnel, rent trucks and other equipment of the Department of Public Works for this purpose, and while funds have been appropriated by Ordinance No. 488, approved December 20, 1952, in the sum of \$30,000.00 no provisions have been made for the employment of personnel; and

Whereas, Such appears to be a good and sufficient reason to impel the certification of an emergency under the circumstances;

Now, Therefore, We, David L. Lawrence, Mayor of the City of Pittsburgh, and Edward R. Frey, City Controller of the City of Pittsburgh do hereby certify to Council of the City of Pittsburgh the existence of an emergency requiring the Director of the Department of Public Works to employ (20) temporary laborers and (1) temporary street foreman in the Bureau of Highways and Sewers, Department of Public Works, during the period covered by the 1953 City Clean-Up Campaign, at the prevailing wage rate established by Ordinance for such classification of employment.

Whereas, The Director of the Department of Public Works in letters addressed to the Mayor of the City of Pittsburgh and the City Controller under date of February 25, 1953, has stated that the 1953 Appropriation Ordinance No. 488 approved December 20, 1952, provided the sum of \$100,000.00 in the Bureau of Highways and Sewers Code Account No. 1655-8 for Asphalt

Repairs by contract; and

Whereas, It was the original intention to let a contract for this purpose, it is now found that more streets can be repaired with the appropriation of \$100,000.00 by the employment of additional personnel and purchase of materials, as well as the purchase of rental of equipment, than if this work were done by contract; and

Whereas, Such appears to be a good and sufficient reason to impel the certification of an emergency under the circumstances;

DENNIS J. MULVIHILL

Attorney at Law

2404 Grant Building
Pittsburgh 19, Pa.

March 16, 1953.

The President and
Members of City Council,
City-County Building,
Pittsburgh, Pa.

Gentlemen:—

I am pleased to be able to give you assurance that the Sisters of the Holy Ghost will use the tract of land in the 20th Ward known as the Zeiger Farm for the sole and exclusive purpose of a home for the aged, and

will build in harmony with the prevailing architecture of the neighborhood, maintaining the surrounding premises in a park-like manner.

The reference to school in my previous communication to you was an error. This mistake was made by the trust company and I picked it up from there, not from the Sisters of the Holy Ghost who never contemplated anything but a home for the aged as described by Mother Rita to you.

I submit herewith to you communication from Bishop John F. Dearden, Ecclesiastical Superior of the Sisters of the Holy Ghost, giving the assurance that you have requested. I also enclose letter from Mother Rita, Superior of the Sisters of the Holy Ghost, likewise giving assurance in the matter.

Yours very truly,

Dennis J. Mulvihill.

DIOCESE OF PITTSBURGH

125 North Craig Street
Pittsburgh 13, Pa.

My dear Mr. Mulvihill:

It has come to my attention that certain questions have been raised about the proposed use of the tract of land in the 20th Ward in which the Sisters of the Holy Ghost have shown some interest. I believe that some comment has been made to the effect that it is planned to establish a school on that property.

In order to resolve any uncertainty in the matter, I would be pleased to have you give assurance, if you find it opportune, to the President and Members of City Council that such speculation is without foundation. I have given encouragement to the Sisters of the Holy Ghost in their efforts to acquire the property. It has been done with the single thought that the tract of land would make an admirable site for a Home for the Aged. There is no thought of using the land for any other purpose.

Sincerely yours,

John F. Dearden.

Bishop of Pittsburgh.

March 12, 1953.

Dear Mr. Mulvihill:

Please be sure to take off the school, for the people fear that we are going to build a school to compete with the public school that they are planning to build.

Thanking you for your kindness, I remain,

Yours truly,

Mother M. Rita.

UNFINISHED BUSINESS

The Chair took up

Bill No. 2036. An Ordinance entitled, "An Ordinance amending Zoning Ordinance No. 372, approved August 9, 1923, Zone Map portion of the 20th Ward, formerly Union Township, by changing from a 'B' Residence District to an 'A' Residence Dis-

trict, all that certain property now or late, of A. I. Zeiger, fronting on the southwesterly side of Carnahan road west of Banksville avenue."

In Council, February 16, 1953, bill read and laid over for one week.

Which was read.

The Chair:

I received a letter from Mr. Mulvihill in reference to the alternative site suggested by the Planning Commission, which I would like the Clerk to read.

No. 2422.

Pittsburgh, Pa., March 20, 1953.

The President and City Council
Pittsburgh, Pennsylvania,

Gentlemen:

I regret to have to inform you that an inspection of the property proposed to the Sisters of the Holy Ghost by the Planning Commission as an alternative to the Zeiger Farm in the 20th Ward, Pittsburgh, is not at all satisfactory or suitable for the purpose of a home for the aged. In view of this situation, the Sisters of the Holy Ghost have asked me to urge you to rezone the Zeiger Farm property in the 20th Ward so that the property may be developed by them, as described, in accordance with the architecture of the neighborhood. Our assurance, of course, has been given to City Council that the property will be used and maintained for the purpose of a home for the aged and the setting will be a credit to the neighborhood.

Yours very truly,

Dennis J. Mulvihill.

Which was read, received and filed.

The Chair:

Mr. Rodgers informs me that Mr. Woods, Planning Director of the Department of City Planning, has suggested an alternative, the Abel-Long property in Beechview. There is nothing in writing, but Mr. Rodgers said Mr. Woods suggested that.

Mr. Davis:

Mr. President, where is this alternative site?

The Chair:

You know where Broadway, in Beechview, is? Opposite Pauline avenue. The property is steep. The City bought it for a playground years ago but never developed it. They call it the Abel-Long property.

Mr. Davis:

Does the City own the property?

The Chair:

Yes.

Mr. Davis:

Mr. President, has this been mentioned to Mr. Mulvihill?

The Chair:

I received a letter from Mr. Mulvihill and Mr. Woods got in touch with Mr. Rodgers, and he brought up this question of the City-owned property in Beechview.

Mr. Rodgers moved

That the bill be laid on the table to give an opportunity to Mr. Mulvihill and the City Planning Commission to examine this property.

Mr. Fagan:

Mr. President: Why didn't Mr. Woods think about it? Apparently Mr. Mulvihill and he had some meetings or conferences in the last week or so. That was the reason the bill was laid over a week ago today. Now, at the eleventh hour Mr. Woods comes in with another proposal. This matter has been in Council at least five weeks and was taken up with Council prior to the presentation of the ordinance and the discussion of the matter.

And the question recurring on the adoption of the motion, the motion prevailed.

(Mr. Fagan voting no.)

REPORTS OF COMMITTEES

Mr. Wolk presented

No. 2423. Report of the Committee on Finance for March 18, 1953, transmitting two ordinances and a resolution to Council.

Which was read.

Mr. Wolk moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken, agreeably to law, and were:

Ayes:—Messrs.

Schifano

Davis

Wolk

Fagan

Gallagher (Pres't)

Rodgers

Ayes 7. Noes none.

Which was read.

Mr. Wolk moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. Fagan:

Mr. President: On Bill No. 2384, An

Ordinance for the purchase of Dempster Dumpsters, I hope that when this equipment is bought that it will not be left standing the way they were the last time they were bought and not put into use for six or eight months. If they are going to buy them they ought to use them immediately.

Mr. Davis:

Mr. President: Have they got trucks set up to handle these things?

The Chair:

I could not answer that.

Mr. Davis:

That was the trouble the last time.

The Chair:

They had the dumps but did not have the chassis.

Mr. Counahan:

Mr. President: As I understood it, at that particular time, the metal they were made from did not meet the specifications as drawn up by the City, and it was some time before they were approved. I know that after being elected to Council I went out and asked why they were tied up and that was the information I received from that particular department.

The Chair:

We sent for Director Devlin but he is at a Planning Commission conference. We sent for Paul Drosnes, Superintendent of the Bureau of Highways and Sewers but he has not appeared. Walter Geisey is here.

Mr. Davis:

Do you need trucks for them, Mr. Geisey?

Mr. Geisey:

No. This will be the third dozen we have ordered and we have enough hoists to handle them.

Mr. Davis:

You are positive you do not need hoists?

Mr. Geisey:

We may need one additional hoisting unit but we have one that is used

for a spare and that is the reason we did not order an extra hoisting unit in this requisition.

Mr. Davis:

You have to have the hoists to get them around?

Mr. Geisey:

We have a spare and the spare is only used in emergencies.

Mr. Counahan:

With regard to the original delivery, I know they were tied up for some time in the yards and were not used. What was the reason for that?

Mr. Geisey:

That is when the hoists had to be on the units. That was the reason they were delayed.

Mr. Counahan:

Wasn't there a question about the metal used?

Mr. Geisey:

Yes, there was a difference in the specifications. They asked for something that wasn't as good as the specifications.

Mr. Davis:

These are not going to lay out there like the last ones?

Mr. Geisey:

No, they should not.

And the bill, as read a second time, was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

Which was read.

Also

No. 2461.

Pittsburgh, Pa., March 26, 1953.

President and Members of City Council
Pittsburgh, Pennsylvania.

Gentlemen:—

I regret to inform you that both the properties suggested to the Sisters of the Holy Ghost by the City Planning Commission as possible substitute sites for Home for Aged are impossible.

The one property is an impossible ravine. The other property is a precipitous slope. Mother Rita viewed both properties.

Yours very truly,

Dennis J. Mulvihill.

Which was read, received and filed.

Mr. Rodgers moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. Fagan:

Mr. President and Members of Council: I rise in support of the bill to change the zoning because I think the Sisters of the Holy Ghost are doing a wonderful thing in order to take care of a lot of elderly women who have to be housed by some institution.

I remember very well, some few years ago when I was connected with the United Mine Workers of America that on numerous occasions I had some very sad and unfortunate duties to perform in placing elderly miners and sometimes their wives in the county homes which were then known as poor houses. Of course, everybody knows that there was great resentment against what was then called poor houses, and there was a song, "Over the Hill to the Poor House." Later there was a motion picture made of the sad plight of those going over the hills. I helped to place men in the county homes in Allegheny County, Westmoreland County and Washington County. When you talked with them they said they would probably live a week or a month and then would die because of the odium that was connected with an institution of that kind. Of course, later those institutions have done a lot of excellent work and they are better supervised and better provided for in the county budgets in the several counties that I have mentioned, but at the same

time there are many people who have no desire to be placed in an institution of that kind. Some have changed their name to county institution but still there is a lot of resentment.

The Holy Ghost Sisters have an institution in West View and I have been in that home a number of times and I think a number of members have also been there. They are overcrowded. They are providing the money for this institution and I think that Council is doing a very advisable and sensible thing in rezoning these twenty-six acres of the Zeiger Farms in order that they may erect another institution that will take care of many people who are not able to take care of themselves and make the winter of their lives pleasant and convenient and they will have the right kind of surroundings where their relatives and friends can call upon them, and will provide a little comfort and cheer to anybody who has to go to an institution of that kind. For that reason I am for Bill No. 2036.

And the bill, as read a second time, was agreed to.

And the bill was read a third time and agreed to.

MOTIONS AND RESOLUTIONS

Mr. Counahan presented

No. 2579.

Pittsburgh, Pa.,
April 20, 1953.

To the President and
Members of Council,
City of Pittsburgh.

Gentlemen:—

The undersigned constituting a subcommittee appointed by the Committee on Finance to consider the question of the rate to be charged to the Borough of Homestead for water furnished by the City of Pittsburgh respectfully submits its report.

After public hearings and investigation, and examination of figures submitted by the Borough of Homestead and by the Department of Public Works, we have come to the conclusion that the water contract negotiated with the Borough of Homestead in 1923 recognized unusual expenditures by the Borough to make possible the delivery of City water. These costs amounted to \$235,000. This unusual circumstance sets off the Borough of Homestead from the ordinary out-of-city water consumer. The differential in favor of the Borough of Homestead, which has been supplied water at the prevailing City rates provided for amortization of this extra cost.

Your Committee feels that ample time has been allowed for the amortization of this extra cost. However, since the Borough has already budgeted its water costs for the year 1953, we do not recommend any change in the rate before January 1, 1954.

We, therefore, suggest that water supplied by the City of Pittsburgh to the Borough of Homestead after Jan-

uary 1, 1954 be charged at a rate 25% over the rate charged to the City consumers, or at such rate as may otherwise be required under then existing law.

Respectfully submitted,

Emanuel F. Schifano,
Bennett Rodgers,
John F. Counahan,
Chairman.

Which was read.

Mr. Counahan moved

That the report be referred to the Committee on Finance.

Which motion prevailed.

Mr. Wolk:

Mr. President: At a meeting of Council held Monday, April 13, 1953, Messrs. Rodgers, Weir and myself were appointed a committee to draft suitable memorial resolutions on the death of Honorable William Alvah Stewart, a former member of Council and late Judge of the United States District Court of Western Pennsylvania. Your committee prepared such a resolution and I now present it for Council's action.

Mr. Wolk presented

No. 2580.

God, in his infinite wisdom, has taken from our midst our friend and former colleague, William Alvah Stewart.

Born in Pittsburgh, he attended the local public schools. He was graduated at Amherst College and the Harvard Law School. He was admitted to the Bar in 1928 and taught in Duquesne University Law School from 1930 to 1941. He died at the early age of 49.

During his short span of life, he occupied many important positions of public trust. He served this City as Assistant City Solicitor from 1934 to 1938, when he was appointed an Assistant Solicitor for Allegheny County. On December 5, 1938 he was appointed City Solicitor by the late Mayor Cornelius D. Scully. In May, 1942, with the United States at War, he entered the service of his Country in the Air Force. He was later transferred to the

Judge Advocate General's School at Ann Arbor, Michigan, receiving the commission of Lieutenant Colonel. On January 4, 1946, he was elected to fill a vacancy in Council caused by the death of George E. Evans. He was subsequently elected by the people of Pittsburgh to that office, and on several occasions he served as Deputy Mayor during periods of absence or sickness of Mayor Scully.

While serving in Council he was appointed a member of the Urban Redevelopment Authority, where he played an important part in the redevelopment of Pittsburgh.

In recognition of his ability as a lawyer and of his service to the public, he was appointed by President Harry S. Truman a Judge of the Federal Court for the Western District of Pennsylvania. There he gave promise of becoming one of the most brilliant Judges in the Country. He served well until his death April 9, 1953.

In every public office, as a lawyer and as a Councilman, and finally as a Judge, he served the people with distinction and honor. At all times he gave of his talent, ability and energy unselfishly and with a conscientious devotion to the duties and responsibilities that were placed upon him.

He was an outstanding American citizen whose heart beat in harmony with the best traditions of his Country.

Judge Stewart will be long remembered by his fellow-citizens for the many difficult tasks which he willingly accepted and for his many contributions to the advancement of the public good; Now, Therefore, Be It

Resolved, That the Mayor and the members of Council of the City of Pittsburgh express their deep sorrow at his passing, and that a copy of this resolution be sent to Mrs. Stewart and the sons of Judge William Alvah Stewart.

Mr. Davis:

Mr. President: Are we going to run into the same thing we ran into on some of the other streets in Roosevelt Acres? The estimate is \$35,000. Does that mean that the property owners will be assessed that amount for the grading, paving and curbing of this street or how is the cost to the property owner determined?

The Chair:

Mr. Boxheimer (Clerk of Council) says we do not know what the assessment will be against the property owners. It is up to the Board of Viewers.

Mr. Fagan:

Mr. President: Section 3 of the Ordinance makes it very clear.

Mr. Davis:

Mr. President: I hope we do not have the same dispute on this street as we had on some of the others. I do not want a repetition of the hearing recently held. For that reason I want to be assured on this point. I suggest we send for Director Devlin.

Mr. Rodgers:

Mr. President: I do not think Director Devlin can say any more than Mr. Fagan has already said. This is a grading, paving and curbing ordinance and provides that the costs shall be assessed against the property specially benefited. This will go before the Board of Viewers, who will take testimony and determine the amount of the cost to be assessed against each property. Of course it may be these property owners will feel they are assessed too high and they will come to Council and ask for a reduction. If they do, we will hear them, but there is nothing we can do at this time. The ordinance is clear and I think the question as to the amount of assessments will be fought out before the Board of Viewers and according to law.

Mr. Fagan:

Mr. President: I think the explana-

tion of Councilman Rodgers is correct. In fact, there has been no promise on the part of any Councilman and the question will be determined by the Board of Viewers. It is a matter that will have to take its proper course under the law.

And the bill, as read a second time, was agreed to.

And the bill was read a third time and agreed to.

MOTIONS AND RESOLUTIONS

The Chair presented

No. 2658.

OFFICE OF THE MAYOR

Pittsburgh, Pa.,

May 1, 1953.

President and Members,
City Council of Pittsburgh.

Gentlemen:

It gives me very great pleasure to submit for the consideration of Council the offer of the Edgar J. Kaufmann Charitable Trust which is attached.

As you note, the Kaufmann Trust has doubled its previous offer of \$500,000 for the construction of an outdoor theater for summer light opera, and now makes an offer of \$1,000,000 which may be used as a contribution to a public auditorium "designed to adequately serve both the needs and desires of the Civic Light Opera Association as well as the community generally for a place in which to watch sporting events, musical and theatrical performances, hold large public meetings and conventions and house other recreational and cultural activities."

This very generous offer of Mr. Kaufmann gives us a splendid start for the

erection of a magnificent and unique public facility, which will be enjoyed not alone by the people of Pittsburgh, but by all of our metropolitan district and by the entire South-Western Pennsylvania area.

I am entirely confident that this gift will be followed by other generous donations which, together with moderate public assistance, will bring the project to relative quick realization.

The site, of course, will be in the redevelopment area of the Lower Hill.

That redevelopment is being substantially aided by the State and by the Federal Governments, and with the cooperation and support of the City and County governments, should get underway at an early date.

The offer of the Kaufmann Trust is another milestone in the progress of the huge project, which once more illustrates Pittsburgh's ability to do great things because it has great citizens.

I am sure that the members of Council will be warmly receptive of the offer, and will act, as they have in the past, to further the spectacular progress of our City.

Very truly yours,

David L. Lawrence,
Mayor.

EDGAR J. KAUFMANN CHARITABLE
TRUST

Pittsburgh, Pa.,

April 29, 1953.

Hon. David L. Lawrence, Mayor,
City of Pittsburgh,
Pittsburgh, Pa.

Dear Mayor Lawrence:—

On June 21, 1949, an Agreement was executed by the City of Pittsburgh, Edgar J. Kaufmann Charitable Trust, Allegheny Conference on Community Development and Civic Light Opera Association of Greater Pittsburgh, providing for a gift of \$500,000 to the City of Pittsburgh by the Kaufmann Trust and the matching of a like and equal sum by the City of Pittsburgh to be used for the designing and construction of an arena suitable for presentation of light opera and other public

purposes. In accordance with this agreement, the architectural firm of Mitchell and Ritchey was retained, specifications and working drawings were made, and construction cost estimates were received, for the building of such an arena. As planning progressed, it was apparent that the cost of such a facility far exceeded the monies allocated for the project and also, the Korean war intervened with the imposition of governmental building restrictions so that the building was not built. Therefore, as provided by the aforementioned agreement, the parties were relieved of any further obligations or responsibilities thereunder.

Continued consideration has been given by interested parties to the proper site location for such a facility in order that when the time would become more auspicious for the construction of such an arena, the project could move swiftly forward. The Planning Commission of the City of Pittsburgh recommended a site in Schenley Park and plans for the structure were completed at the recommended site. In the meantime, considerable public interest has developed in the possibility of locating and constructing a public auditorium in the Lower Hill Redevelopment Area designed to adequately serve both the needs and desires of the Civic Light Opera Association as well as the community generally for a place in which to watch sporting events, musical and theatrical performances, hold large public meetings and conventions and house other recreational and cultural activities. The plans for the facility provide for a retractible roof, thus assuring an outdoor atmosphere in the summer and adequate shelter from the cold in the winter.

The Kaufman Charitable Trust and the Civic Light Opera Association are sincerely interested in the construction of such a facility in the Lower Hill Redevelopment Area.

The Edgar J. Kaufmann Charitable Trust is pleased to make a new offer in the sum of \$1,000,000 as a gift toward the construction of the proposed public auditorium. This gift will be to an agency approved by the City and the Edgar J. Kaufmann Charitable

Trust. Since the recipient of the gift is not presently known, it is herein-after referred to as the "Donee." This letter outlines in general the terms of the proposed gift; however, the complete terms will be embodied in a formal agreement to be made, following acceptance of this offer.

In general the proposal is for the Kaufmann Charitable Trust to make a gift of \$1,000,000 to the Donee provided that the City and others make available funds sufficient to complete the project. The agreement ultimately to be entered into among the City, the Kaufmann Charitable Trust, the Donee, the Civic Light Opera Association and possibly other interested parties, would recite that it superceded the above mentioned agreement of June 21, 1949, and that the Kaufmann Charitable Trust has no unperformed obligations and no further liability under such agreement of June 21, 1949, and would provide in substance that:

1. The Donee will construct, or cause to be constructed in the Lower Hill Redevelopment Area, the proposed public auditorium substantially as shown on the preliminary designs for said project transmitted February 1, 1953 by the architectural firm of Mitchell and Ritchey to the Allegheny Conference on Community Development;

2. The Kaufmann Charitable Trust will provide for the construction of the project, the sum of \$1,000,000, which is to be paid when funds sufficient for the completion of the project are available to the Donee under conditions which limit the use of such funds to the construction of the proposed public auditorium, or the payment thereof to the Donee under similar conditions assured to the satisfaction of the Kaufmann Charitable Trust;

3. The City will grant the Opera Association such exclusive use of the project as may be required by the Opera Association for the preparation and presentation of musical and theatrical performances during the summer months of each year, (i.e., from approximately the 1st of May to approximately the 15th of September) without requiring payment of rent but requiring payment of building operating

costs during the time allotted to it; and the Opera Association shall have the right to charge fees for admission, and any surplus accruing or deficit incurred by the Opera Association will belong to or be borne by the Opera Association;

4. The Civic Light Opera Association of Greater Pittsburgh agrees to use the facility for the presentation of its light opera and other theatrical performances;

This proposal of the Kaufmann Charitable Trust must be accepted by the City of Pittsburgh within a period of one year from the date of this letter.

Very truly yours,

Robert J. Dodds,
J. C. Ritchie,
Edgar J. Kaufmann,
Individual Trustees.

Which was read, received and filed.

Mr. Wolk presented

No. 2659.

Kaufmann Charitable Trust for their most generous offer of One Million Dollars to be used as a contribution to a public auditorium designed to adequately serve both the needs and desires of the Civic Light Opera Association as well as the community generally for a place in which to watch sporting events, musical and theatrical performances, hold large public meetings and conventions and house other recreational and cultural activities; and be it further

The adoption of the resolution.

Which motion prevailed.

Mr. Fagan:

Mr. President and gentlemen of

Council: I arise to a question of personal privilege.

Last Wednesday afternoon, at a public hearing of the Dirt Street Committee from the Fifth Ward, a man appeared on that committee by the name of Alexander Wright. Mr. Wright claimed that his property is at 558 Morgan street. On a check we find that 558 Morgan street is owned and occupied by Samuel O. C. McGill. We have looked at the records in the City Treasurer's office and find that Mr. Alexander Wright does not own any property in the City of Pittsburgh. If you will recall, I asked him that question, if he is a property owner, and he stated he is.

I called Mr. McGill this morning—his telephone number is MAflower 1-1797, and asked for Mr. Wright. He said Mr. Wright lives on the third floor and was an occupant. I asked if Mr. Wright was available. He said he was not. I said, "Do you know what he is doing?" He said, "He is out representing the Progressive Party." That is the C. P. and the charge I made here the other afternoon was entirely correct, and I have knowledge and believed for a long time that Mr. Wright is a member of the Communist Party. Of course, I have been fighting Communists since 1922. That was when they first reared their heads here in Pennsylvania back in the big coal strike in 1922. I have fought them morally, physically and financially, and have spent a lot of money fighting this Party. Back in 1923, when Charles Evans Hughes was Chief Justice of the Supreme Court of the United States he said that the United Mine Workers and the American Federation of Labor were doing more than anybody else to destroy the Communist Party.

I said that I would not sit in Council meetings with anybody who is a Communist. I am making that very clear here this afternoon to you, Mr. President and the other members of Council. When a member of the Communist Party comes before Council for any reason I will not be a part of the hearing. These people are doing everything they can to overthrow

and destroy our government. They practice sabotage and believe in and are followers of the Third Internationale and are absolutely following an atheistic dictator, and they want to destroy not only the church but our free institutions and everything we believe in. Hundreds of thousands of men and women have fought, bled and died in order to maintain our way of life, and when men like Alexander Wright, who has been doing everything in his power to advance the cause of Communism in America comes here to City Council and tries to tell us what we should do, I am very bitterly opposed to those people. He is one of the men who paraded in front of the City-County Building and picketed the administration, and like the rest of the

Commies he would like to destroy our American institutions.

I want to make my position very clear that I am bitterly opposed to communists and bitterly opposed to the subversives who are doing everything they can to destroy our way of life.

Mr. Wright and no other member of the Communist Party will ever get a hearing before Council so far as I am concerned.

Mr. Fagan:

Mr. President: I would like to have placed in the Municipal Record today a communication I received from Edmond McKenzie, Sr., representing the Dirt Street Committee of the Fifth Ward, in connection with the accusation I made against one Alexander Wright. The communication agrees

that my position was proper. I also would like to have placed in the Municipal Record today the communication I addressed to Mr. Edmond McKenzie, Sr., 547 Junilla Street, Pittsburgh, Pa., of May 6, 1953.

May 4, 1953.

The Hon. Mr. Patrick Fagan,
City Councilman,
City-County Building,
Pittsburgh, Penna.

My dear Mr. Fagan:

This letter is to clarify my position as chairman of the Dirt Street Committee which appeared before Council last week to request improvement of conditions in the Hill District.

First of all, I must tell you that I can appreciate your refusal to listen to Mr. Wright, since I have learned during the past few days of his pro-Communist affiliations. Certainly, I, as a citizen, and as father of three World War II veterans, am not proud of any such association.

Had I been aware of the fact that Mr. Wright has been cited by the Federal government as a subversive, I should not have been so unwise as to permit him to sit on the committee with our group, realizing that such a move could in no way help our cause, rather serve to defeat a worthy purpose.

But the picture is not so discouraging, because I have lived long enough to know that one must often pay a dear price for his learning. And, believe me, the word of Uncle Sam is good enough for me!!

Therefore, I must extend to you and to the other members of Council my humblest apology for such indiscretion. On the other hand, I can not regret our request that Council do something about the deplorable street conditions in our neighborhoods. The nucleus of our committee represents hard-working, loyal Americans who know we are not getting a square deal. We pay our taxes. We are not asking too much.

I am happy to admit having made a mistake, and I hope you and your associates in such responsible positions

will profit as much as I have from our experience. A bit of objective thinking will, without a doubt, lead you to the obvious conclusion that it is just such neglect of minority groups and their interests which often provides fertile ground for those who would destroy our heritage. Sometimes, particularly younger people, rather than members of our committee, are not wise enough to see the next best move. To us the procedure is clear; that is, we must first rid ourselves of the undesirable element, then proceed with our program.

I shall endeavor sincerely to correct the damage done to my associates by permitting this unfortunate incident.

I hope you, Mr. Fagan, will be just as forthright and fair, and do your best to rectify the gross injustices to Hill District residents.

Yours for continued improvement of every section of our City.

Respectfully submitted,

Edmond McKenzie, Sr.
547 Junilla Street
Pittsburgh, Pa.

May 6, 1953.

Mr. Edmond McKenzie, Sr.,
547 Junilla Street,
Pittsburgh, Penna.

Dear Mr. McKenzie:

This is to acknowledge receipt of your communication of May 4, 1953, defining your position as Chairman of the Dirt Street Committee which appeared before Council last week with respect to improvement of certain streets in the Fifth Ward.

I am glad to learn that you agree with the position I took so far as Mr. Wright is concerned. At no time did any question enter my mind as to the loyalty of yourself and the other members of your committee.

After your first public hearing, a committee of Council, of which I was a member, made an inspection of the streets which you are interested in having graded, paved and curbed. At that time the committee informed you as to the procedure to follow to have

these streets improved. I am glad to know that you were able to get 51 per cent of the property owners on some of these streets to sign petitions for their improvement. These petitions, as we learned, are now in the hands of the Department of Public Works for checking, and as soon as this is done the proper ordinances will be submitted to Council. I, as one member of Council, can assure you that when these ordinances come before us, I will give them my earnest and careful consideration. I have never at any time voted against any improvement ordinance when the majority of property owners requested it.

You and the members of your committee are to be congratulated for the interest you are taking in trying to improve street conditions in your neighborhood.

Again appreciating your writing me, and with kindest personal regards, I am,

Yours very truly,

Patrick T. Fagan.

REPORTS OF SPECIAL COMMITTEES

Mr. Davis (for Mr. Rodgers)
presented

No. 2846.

June 4, 1953.

President and Members
of Council.

Gentlemen:

The undersigned, members of a Sub-Committee appointed to investigate traffic conditions on Brookline Boulevard, near Merrick and Whited streets, herewith submit the following report:

In the block above Merrick and Whited streets, Brookline Boulevard is divided into two (2) One-Way paved roadways separated by the unpaved right-of-way of the Pittsburgh Railways Company with two (2) sets of railway tracks. In the right-of-way, the Railways Company maintains two (2) lines of iron trolley poles supporting their power lines

At a public hearing before this Council, it was stated that these Railways Company poles, (because of their location close to the travelled roadway), constitute a real hazard to automobile traffic going down grade toward Merrick and Whited streets. Indeed, this situation was forcibly brought to the attention of all the members of this Council by the nearly tragic occurrence of last week when a group of young people were seriously injured by a collision with one of these trolley poles.

We, of your Sub-Committee, have familiarized ourselves with the location, and after studying the problem, have concluded that the Pittsburgh Railways trolley poles, immediately adjacent

to the roadway constitute an unnecessary and unreasonable hazard to automobile traffic and that this hazard is greatly increased by the parking of automobiles and trucks along this section of Brookline Boulevard, especially after dark.

We, therefore, recommend:

- (1) That the Department of Public Safety, Bureau of Traffic Planning, as an immediate measure, institute a No Parking Regulation, permitting stopping only during daylight hours, and no parking after dark, and
- (2) That the Department of Law be directed, in conjunction with this Sub-Committee, to file a request and, if necessary, a demand upon the Pittsburgh Railways Company for the removal or relocation of the Railways Company poles to a safe position, subject to approval by the Department of Public Works, the Department of Public Safety and this Sub-Committee

Respectfully submitted,

WILLIAM H. DAVIS
EMANUEL F SCHIFANO
BENNETT RODGERS,
Chairman.

Which was read and referred to the Committee on Public Works.

MOTIONS AND RESOLUTIONS

Mr. Counahan:

Mr. President: The Committee consisting of Messrs. Wolk, Weir, Rodgers and myself, appointed by Council to draft a resolution thanking the members of the Municipal Water Authority of Pittsburgh, wish to present that resolution.

Mr. Counahan presented

No. 3128.

On the third day of November, 1952, the Council appointed John A. Feigel,

J. Frank McClurg, Webster N. Jones, John P. Robin and Howard B. Stewart to be members of the Municipal Water Authority of Pittsburgh, and they were authorized to function in pursuance of the Articles of Incorporation of the Commonwealth of Pennsylvania on the twenty-fourth day of November, 1952.

Since that time they have served zealously, earnestly and most competently to achieve the objective contemplated in the creation of the Municipal Water Authority of Pittsburgh.

They gave their time and talents without compensation as a public service to the people of Pittsburgh.

By reason of economic conditions arising through a National policy, which caused too great an increase in interest rates, they have been compelled to recommend that the transfer of the water plant and the sale of bonds should not take place at this time.

Council has accepted their recommendation.

The members of the Municipal Water Authority of Pittsburgh have offered their services in an advisory capacity to assist in the rehabilitation program of the City's water system.

Therefore, Be It

Resolved, That the Council expresses its deep gratitude to John A. Feigel, J. Frank McClurg, Webster N. Jones, John P. Robin and Howard B. Stewart for their most valuable services to the people of Pittsburgh; and Council further accepts, with great appreciation, their offer to continue to serve in an advisory capacity.

Which was read.

Mr. Counahan moved

The adoption of the resolution by a rising vote.

Which motion prevailed.

Mr. Counahan moved

That the City Clerk be authorized to mail a copy of Bill No. 3128 to John A. Feigel, J. Frank McClurg, Webster N. Jones, John P. Robin and Howard B. Stewart, members of the Pittsburgh Municipal Water Authority.

Which motion prevailed.

Mr. Weir presented

No. 3129.

MAYOR'S OFFICE

Pittsburgh, Pa.,

August 3, 1953.

President and Members,
City Council.

Gentlemen:

I am transmitting herewith two proposed ordinances which the Parking Authority requests be enacted as part of its programming of construction of the Mellon Square park and underground garage.

We have the welcome news from the Parking Authority that financing of this project has been cleared and that excavation will start in the immediate future.

The Parking Authority is to be congratulated on its successful conclusion of the many complicated situations which have arisen in connection with the underground garage, and I am sure that all of us in the city government will wish to extend every reasonable assistance to the accomplishment of the project.

One of the ordinances submitted is an ordinance permitting "encroachments" under the adjoining sidewalks. This has been prepared in consultation with the City's Law Department and Department of Public Works, and has the approval of those agencies.

The second is a change in building code requirements as to lighting fixtures, which again has been prepared in consultation with and has the support of the Bureau of Building Inspection. Briefly, it eliminates an insistence upon so-called explosion proof lighting fixtures, which is unrealistic in garage construction because of the spark-producing nature of automobile ignitions and because of the ventilation system which will be incorporated in the garage. The air will be changed eight times per hour, instead of the six times per hour which is required under the code.

I hope that the Council will give these ordinances prompt and sympathetic consideration.

Very truly yours,

David L. Lawrence,
Mayor.

Also

No. 3130. An Ordinance granting unto the Public Parking Authority of Pittsburgh, its lessees, successors and assigns, the right and privilege to construct, maintain and use concrete garage structures extending beneath certain streets surrounding that plot of ground known as "Mellon Square" in the Second Ward of the City of Pittsburgh, namely, Sixth avenue, William Penn place, Oliver avenue and Smithfield street, and waiving permit and inspection fees therefor.

Which were read and referred to the Committee on Public Service and Surveys.

Also

No. 3131. An Ordinance authorizing the Bureau of Building Inspection to issue to Mellon Square Garage, Inc., a permit for the construction of a subsurface parking garage in the area bounded by William Penn place, Sixth avenue, Smithfield street and Oliver avenue, containing electrical installations not in conformity with Article 510, Sections 5102 and 5103, of the National Electrical Code of 1951, which Code has been adopted by reference as part of the Building Code of the City of Pittsburgh, Ordinance No. 300, approved August 6, 1947.

Which was read and referred to the Committee on Public Safety.

The Chair:

I understand there is a committee here representing the Pittsburgh Professional Baseball Association in the interest of the "Honus" Wagner Memorial. I want to inform them that tomorrow morning the ordinance, which has just been presented at this meeting, will be before the Committee for consideration.

Mr. Dinan:

This committee is here in the in-

terest of a bill which was presented by me to permit the erection of a bronze statue of "Honus" Wagner in Schenley Park. We are honored with the presence of a former great big league ball player, Julius J. Solters. I ask unanimous consent for Mr. Solters to say a few words.

Unanimous consent was granted.

Mr. Solters:

We are here in the interest of having erected in Schenley Park a bronze statue of "Honus" Wagner. We are hoping to raise funds for this purpose, and that is why we are here today. We will go ahead as soon as this ordinance is passed.

Mr. Dinan:

The ordinance will be considered in Committee tomorrow. I am not sure that it will be passed, but I predict it will pass, because we want to do honor to a great ball player. The sculptor of the bronze statue is here, Mr. Frank Vittor, and I would like to present him to you. We have also with us a man who, when he pitched at Forbes Field, we always felt that the game was in the bag when he was on the mound—Wilbur Cooper.

Mr. Cooper:

I would like to be back but not with the kind of a ball club we have now.

Mr. Dinan:

I want to present another member of the Association—Mr. Billy Fuchs.

Mr. Dinan:

We appreciate your presence.

The Chair:

I do not think there is anybody here who is opposed to "Honus" Wagner and doing something for the Pittsburgh Professional Baseball Association, and I do not think that you will experience much trouble in having this ordinance passed. Thank you, gentlemen, and good luck in your endeavor.

Mr. Dinan:

I want to present the counsel for the Pittsburgh Professional Baseball Association and to present an Assistant County

Solicitor—John Brosky.

Mr. Davis moved
That the Minutes of Council
of Monday, July 20, 1953, be approved.

Which motion prevailed.

And upon motion of Mr. Dinan

Council adjourned.

Wilbur F. Galbraith is in the chamber and has requested to be heard on a matter relative to the campaign for funds for the cerebral palsy sufferers. What is your pleasure?

Mr. Dinan moved

That unanimous consent be granted to Mr. Galbraith to be heard.

Which motion prevailed.

Wilbur F. Galbraith, Esq.:

Mr. President and Members of Council: On September 19, 1953, the Cerebral Palsy Committee will hold in Pittsburgh a combined television and radio show for the purpose of soliciting funds for the cerebral palsy people.

This, I am told, is the first Pittsburgh performance of this kind. It is a performance between the television and radio people and there will be a number of stars appearing on the program, commencing at 10:00 o'clock on the night of September 19th and continuing until 2:00 o'clock the next day. Last year it was very successful. This year, I think likewise, we will be successful.

As an adjunct it was proposed by Mr. Guy Miller, who owns an airplane, and it was proposed to fly over the City of Pittsburgh and distribute from the air, and, of course, it has a publicity aspect to it, tickets for the Nixon Theatre, so that persons picking up these tickets might present them to the theatre during the course of this performance. This is the first time that a telecast of this kind has originated from the stage of the theatre. It should be a very entertaining and instructive performance for anyone to attend. I have seen it elsewhere. It is our hope, but no one can guarantee it, that most of these tickets will be picked up. A certain number of them will fall on roofs, etc., that will not be recovered. It is not a mass distribution of material, as I understand it, but rather sufficient material to focus attention, create interest and, may I say, cause conversation. Our main purpose is to create the interest of the public and hope that this in some way may help, so that these unfortunate people may thereby in a measure be helped.

There is no commercial aspect to this. Most of the work is being done as volunteer work. It happens to be one of those particular efforts for some particular reason. It makes me feel I should come before you and ask for this in good conscience.

The Chair:

Ordinance No. 172, of 1935, reads as follows:

"Section 3. No person or persons, firm or corporation, conducting or flying any aircraft over any part of the City of Pittsburgh shall throw out, discharge or drop, or cause or permit to be thrown out, discharged

or dropped, from said aircraft, any ballast, instruments, tools, containers, circulars, advertising matter, handbills, waste paper or other article or material whatsoever."

That is the ordinance.

Mr. Weir:

Mr. President: I think we ought to try to accomplish this if we can. I do not think there would be any danger involved in a ticket fluttering down through the air. I cannot see how it could harm anyone, and being a thing of value, it will be much sought after, and there won't be anything lying around. I think we ought to try to get it done, because, after all, this is one of the leading charitable drives in the whole nation.

The Chair:

Mr. Galbraith has talked with Director Fairley and Director Devlin, and they said it is up to Council. If it is agreeable to Council I will ask Mr. Weir to take it up with Director Fairley and Director Devlin.

Mr. Weir:

I will be glad to do that.

Whereas, Article XIV, Section 13 of the Act of March 7, 1901, P. L. 20, as amended by the Act of May 31, 1911, P. L. 46, provides that all appropriations shall be made annually by general ordinance except in cases of emergency when special appropriations may be made to meet the same; and

Whereas, The Director of the Department of Public Works in letters addressed to the Mayor and the City Controller, dated August 25, 1953, has stated that because of the unusual amount of overtime caused by breakdowns of plant machinery, particularly the Asphalt Dryer, and other emergency work in preparing streets for detour routes because of improvements to Boulevard of the Allies, Brady Street Bridge and Penn avenue (Fifth avenue to Wilkinsburg line), it is necessary to transfer the sum of \$3,000.00 to Code Account No. 1655-2, Wages, Temporary Employees, Asphalt Plant, Department of Public Works, for payment of wages for the remainder of this year;

Whereas, The foregoing appears to be a good and sufficient reason to impel the certification of an emergency under the circumstances;

Now, Therefore, We, David L. Lawrence, Mayor of the City of Pittsburgh, and Edward R. Frey, Controller of the City of Pittsburgh, do hereby certify to Council of the City of Pittsburgh the existence of an emergency requiring the transfer of the sum of \$3,000.00 to Code Account No. 1655-2, Wages, Temporary Employees, Asphalt Plant, Department of Public Works, for the payment of wages for the remainder of the year.

Mr. Dinan:

Mr. President: I would like to have the Chairman of the Committee on Public Works, Mr. Rodgers, make a few remarks on this resolution, because the Department of Public Works will be much more involved than the Department of Parks and Recreation until the project is completed.

Mr. Rodgers:

Thank you, Mr. Dinan.

Mr. President and Members of Council: I deem it a great privilege to

speak in favor of this resolution. What we have in our minds, we have been calling this Mellon Square for quite a while, but we are officially giving that name "Mellon Square" to the site of the great underground parking garage with a beautiful downtown park on the surface.

Many of you attended the dedication services last Monday—the ground breaking services—and you are all aware of the implication of this great project. It will be utilitarian in supplying six floors of underground parking. It will be beautiful, being a green spot in the very center of our City. We owe all this to the Mellon Foundation; and I think it entirely fitting that the official name should be "Mellon Square" in honor of those two great Pittsburghers, Andrew W. Mellon and Richard B. Mellon.

Both Andrew W. Mellon and Richard B. Mellon were born in Pittsburgh and lived here all their lives, attaining great prominence in this City. Their interests and their accomplishments went beyond the limits of this City. They were nationally known but Pittsburgh remained, throughout their lives, their home and their first thought and their first interest. Andrew W. Mellon and Richard B. Mellon have done many great things for this City. I think "Mellon Square" is a fitting culmination and a fitting memorial.

We are indeed fortunate that Richard King Mellon, son of Richard B. Mellon, is carrying on that love for Pittsburgh and interest for its beautification and development which characterized these two great men during their lifetimes.

At the risk of being somewhat presumptuous, I want to tell you of an incident. I knew both of these gentlemen when I was a small boy. Of course, they were both well advanced in years at that time, but I want to say that their kindness, courtesy and consideration for a boy in knee pants is still in my mind.

The Chair:

May I suggest, Mr. Rodgers, that you make a motion, that a copy of the resolution and a transcript of the remarks be sent to the Mellon Founda-

tion and the children of Andrew W. Mellon and Richard B. Mellon.

Mr. Rodgers:

I am happy to include that suggestion in my motion.

Mr. Rodgers moved:

That a copy of the resolution and the remarks thereon be sent to the Mellon Foundation, and the children of Andrew W. Mellon and Richard B. Mellon: Mr. Richard K. Mellon, Mrs. Alan Magee Scaife, Mrs. David K. E. Bruce and Mr. Paul Mellon.

Which motion prevailed.

And the resolution was read a third time and upon final passage the ayes and noes were taken, and being taken were:

Mr. President: On Bill No. 3407, at the bottom of the first page, it reads: "Section 1. That subject to the provisions of Section 2 of this Ordinance, the Mayor and the Director of the Department of Public Works, be and hereby they are authorized and directed to enter into a Cooperation Contract in a form to be approved by the City Solicitor, for and on behalf of the City of Pittsburgh, with the Urban Redevelopment Authority of Pittsburgh, containing in substance the following terms:".

Mr. Schifano:

The Chair:

Are there any other remarks?

Mr. President: I would like to vote for these bills after they have been approved by the Department of Law. After all, there is a possibility that there will be a lot of legal entanglements before this is consummated. I would like to be properly protected.

Mr. President: I would like to have Mr. Schifano explain Bill No. 2394.

Mr. Schifano:

Mr. President: A previous ordinance, No. 448, which was approved in 1952, vacated certain streets. This was a plan of lots and it did not meet the approval of the City Planning Commission. The City Planning Commission made certain suggestions to the owners of the property and there was some arrangement made whereby certain streets were to be vacated so that the plan of lots could be approved, and that was done by this ordinance of 1952, where these streets were vacated.

There was some question in the minds of the title company whether or not there would be assessment against the owners of the property, and the matter was referred to the Law Department, and the Law Department submitted a communication wherein it says there will be no assessments as there were no damages, and the owners of the property could get clear title so they could proceed with the erection of buildings, which will mean additional taxes to the City of Pittsburgh.

Mr. Schifano:

Mr. President: I would like to ask Mr. Fagan, in matters of this kind, is it usual to follow this procedure where there is a substitution of purchasers from the original resolution?

Mr. Fagan:

Mr. President: It is a legitimate procedure. I have before me Resolution No. 224, where Thomas Agulla and his wife submitted a proposal to the Department of Lands and Buildings to

purchase City-owned property, which reads:

"Whereas, Thomas Agulia and Helen Agulia, his wife, have submitted a proposal to the Department of Lands and Buildings to purchase City-owned property acquired at tax sale on June 2, 1947, from Sarah P. Slayton, for the sum of \$750.00, and described as follows:

"29th Ward, Pittsburgh, Lots Nos. 321 and 322 Lucina avenue, being 50 x 100 in all, Oakleigh Plan, reserving at the intersection of Lucina avenue and Midwood way, a portion of said property, for street purposes having a radius of 10 feet.

"Therefore, Be It

"Resolved, That the Office of Solicitor for City and School Tax Liens is hereby authorized and directed to petition the Court of Common Pleas for the sale of the aforesaid property in accordance with the aforesaid proposal and Act No. 514 of 1947. The cost of Court proceedings to be paid from Trust Fund, D. T. W. L., and repaid to said fund from the sale price."

The resolution will be amended by striking out the names "Thomas Agulia and Helen Agulia, his wife," and by inserting in lieu thereof the names "Howard H. LaDage and Helen I. LaDage, his wife."

Mr. Schifano:

Is there assignment of that original agreement to Howard H. LaDage and Helen I. LaDage, his wife?

Mr. Fagan:

The matter is properly before Council and I will read you the letter from Homer R. Greene, Director of the Department of Lands and Buildings:

"We submit herewith a resolution amending Resolution No. 224, ap-

proved May 22, 1953, which authorized the sale of Lots Nos. 321 and 322 on Lucina avenue, 29th Ward, to Thomas Agulia and Helen Agulia, his wife, for the sum of \$750.00, by striking out the names 'Thomas Agulia and Helen Agulia, his wife,' and inserting in lieu thereof the names 'Howard H. LaDage and Helen I. LaDage, his wife.'

"Mr. and Mrs. Agulia have withdrawn from the sale in favor of Howard H. and Helen I. LaDage who intend to erect a dwelling on the lots.

"We recommend this resolution for your approval.

Very truly yours,

Homer R. Greene,
Director."

Mr. Schifano:

That all has to do with the proposal for the purchase of the property. My question is whether or not there is an assignment over to Mr. LaDage and his wife.

Mr. Fagan:

There is none, and in order to satisfy the record, I move that the resolution be laid over.

Which motion prevailed.

Mr. Fagan moved

That the resolution be laid over.

UNFINISHED BUSINESS

Mr. Fagan took up

Bill No. 3528. Resolution amending Resolution No. 224, approved May 22, 1953, authorizing sale to Thomas Agulia and Helen Agulia, his

wife, lots on Lucina avenue, 29th Ward, for the sum of \$750.00.

In Council, November 16, 1953, read and laid over.

Which was read.

Mr. Fagan moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second time.

Mr. Schifano:

Mr. President: I would like to ask how this differs from the original bill.

Mr. Fagan:

Mr. President: It does not differ in any material way from the original bill. I discussed the matter with Frank Kirk, who is one of the representatives of the Department of Lands and Buildings, and he informed me how this transaction had taken place.

In the first place, Mr. Thomas Agulia and his wife purchased the lot. Then on account of it being held up for investigation and there being considerable delay in having the proper title search made, they decided to drop it. They deposited hand money in the amount of \$100.00. When they notified Frank Kirk, he told them if they would get another purchaser at the same price, the hand money would be returned to them. Mr. Howard H. LaDage and his wife agreed to purchase the property for the price the three taxing bodies were asking, namely, \$750.00, and in my opinion, it is a legal transaction. Of course, to ask Mr. Agulia and his wife to forfeit the \$100.00, would be, in my opinion, unfair, and that is the reason I ask that the matter be taken up by Council at the present moment.

Mr. Schifano:

Mr. President: I would like to ask Mr. Fagan if there is an assignment in the Department of Lands and Buildings over to the new purchaser, or whether or not the original transaction is complete and the money returned, and a new transaction entered into.

Mr. Fagan:

As I understand from Mr. Kirk, and I think you talked to him, that when a situation of this kind arose, they would send in a repealer and draft legislation for a new sale to the people who were going to purchase the property. Isn't that what you said?

Mr. Schifano:

I said that matters were handled for years the way you brought it before Council, but I wonder if there should not be an assignment of title from the original purchaser over to the new purchaser. The way it is, we have no assignment here and I think it should be a new transaction. I think it should be cleared in the Department of Lands and Buildings, and they should bring it up as a new matter.

Mr. Fagan:

Are you interested in the Agulia family forfeiting \$100.00?

Mr. Schifano:

I am interested in the transaction being a proper transaction from the very beginning. I asked whether it had been done this way over the years and if there was an assignment of interest. As I see it, there was no assignment and these people got their money back, and it was entered into by these other people, and it should be entered into as a new transaction. I understood it was going to be brought up that way. This is the same, original bill—the same as it was before.

Mr. Fagan:

Mr. Frank Kirk has been in that Department for a long time. A case like this does not happen once in a blue moon. Mr. Kirk informs me that the transaction is legal and legitimate, and it is resolved that the LaDage family will have title to this land that they are purchasing.

The Chair:

For the benefit of Council, on the last page—438—the resolution is printed and so is the letter.

Mr. Fagan:

Mr. President: In order to make my

position clear, I bring it before Council today for consideration and judgment. If you think it is not lawful and legitimate, and there is something wrong with it, you have the right to vote against it.

Mr. Rodgers moved

Whereas, Article XIV, Section 13 of the Act of March 7, 1901, P. L. 20, as amended by the Act of May 31, 1911, P. L. 461, provides that all appropriations shall be made annually by general ordinance except in cases of emergency when special appropriations may be made to meet the same; and

Whereas, The Director of the Department of Parks and Recreation in letters addressed to the Mayor and the City Controller, under date of November 5, 1953, has stated that an emergency has arisen in the Department of Parks and Recreation, Highland Park Zoo, making it necessary to transfer the sum of \$800.00 to Code Account 1813—Wages, Temporary Employees, Highland Park Zoo, Bureau of Administration for the reason that ill health had forced the resignation of the Assistant Head Keeper at the Zoo and because of the necessity of continuing his work at the Zoo it was necessary to retain a temporary employee to do this work; and

Whereas, The foregoing appears to be a good and sufficient reason to impel the certification of an emergency under the circumstances;

Now, Therefore, we David L. Lawrence, Mayor of the City of Pittsburgh, and Edward R. Frey, Controller of the City of Pittsburgh, do hereby certify to Council of the City of Pittsburgh the existence of an emergency requiring the transfer of the sum of \$800.00 to Code Account 1813—Wages, Temporary Employees, Highland Park Zoo, Bureau of Administration, for the purpose hereinabove set forth,

Council of the
City of Pittsburgh,
Gentlemen:

Enclosed please find form of Resolution to exonerate the City tax for the year 1950, in the sum of \$58.80, assessed against William K. Robinson, in the Fourteenth Ward.

A communication from the Treasurer's Supervisor indicates that the Board of Property Assessment, Appeals and Review under date of November 2, 1953, stated that its records show that the building formerly located on said property was moved for highway purposes sometime in 1950, which caused the assessment against said property to be substantially reduced. The Treasurer's Supervisor has estimated the proper amount for reduction and the same is set forth in the form of Resolution.

Respectfully yours,

J. F. McKenna, Jr.,
1st Asst. City Solicitor.

The Chair

His Honor, the Mayor, is ready to submit his budget to Council.

I appoint Messrs. Fagan and Wolk to escort the Mayor to the Council Chamber.

(After the return of the Committee and the Mayor):

The Chair:

Members of Council and Gentlemen:
His Honor, the Mayor of Pittsburgh.

Mayor Lawrence:

President and Members of Council:

I have the honor to transmit herewith estimates of expenditures and revenues for the operation of the City of Pittsburgh in 1954. It is the most difficult budget, requiring the hardest decisions, of any that have come in my period of responsibility for the administration of the City's affairs.

The cost of living, and therefore, the cost of operating continues to rise each month. The reports which are published by the Federal Government make that clear, and demonstrate that the inflationary pressures which have plagued municipal financing show no real sign of abatement.

At the same time, the demand for public services continues to increase with the rising living standards of the community. Pittsburgh is making a strenuous effort to protect its future and the future of all who live here, and the city government has inescapable obligations in this work. A failure to perform the standard municipal functions adequately, and to meet such constantly growing problems as traffic movement and control, would in large

measure defeat the purpose of the improvement program in which Pittsburgh people have put so much of their hearts, their minds, and their resources.

The budget requests of the departments which came to me totalled \$46,031,579. These were not padded, and did not represent any considerable items which the operating heads of the city's services did not honestly believe were necessary for the proper performance of their responsibilities.

This figure of more than \$46,000,000 compared with a revenue estimate from the City Treasurer of \$40,988,000.

The gap was enormous.

The budget estimates obviously had to be reduced. That was the obligation of the Mayor's Office, and in our office, we reduced the estimated appropriations to \$44,405,759. The reductions came to \$1,625,820.

This is the budget which is now transmitted. It is \$29,276 less than the appropriations made for 1953, despite the fact that it contains some mandatory increases such as scheduled increments in policemen's and firemen's salaries, increased cost of utility services, and similar items.

This is therefore a minimum budget. It not only does not provide any new services, no matter how desirable; it does not provide any cost of living increases for city employees or provide for the payment of prevailing wages under newly negotiated labor contracts; nor does it make any compensation in increased police and fire personnel for the manpower reductions which were recklessly imposed upon us by the Legislature.

The budget estimates have been reviewed code account by code account in comparison with actual 1953 expenditures, and it is fair to state that it will provide a smaller return in unexpended balances than previous budgets have done for us.

The figure is still, however, \$44,405,759, as against revenue estimates of \$40,988,000. This leaves a gap of \$3,417,759.

Our 1953 operations will yield a surplus of \$500,000, as predicted. We will

be able to close out the year without a deficit in spite of the failure of the water authority proposal and the consequent loss of \$2,100,000 in anticipated revenues. But, of course, our surplus was drastically reduced in the process, and ceases to be of major assistance in balancing even a minimum budget for 1954.

To bring this minimum budget into balance, taking due consideration of a surplus of \$500,000, would require an increase in the property tax of more than four mills on land and two mills on building values.

A five percent increase to the employees of the city, justifiable in view of rising living costs and the wage-salary pattern being established in the private economy, and adherence to the established basis of prevailing wage payments in comparable trades, would cost approximately \$1,550,000.

The Legislature compels us to reduce the work week of policemen to a forty-four hour five-day week, and to reduce the work week of firemen to an alternating four and five-day week. To replace the man hours lost would require the addition of 191 policemen and 110 firemen, at an initial cost of almost \$1,000,000 a year.

The result might therefore be a gap between appropriations and revenues which would total about \$5,500,000—the revenue predictable from eight mills of taxation on land and four mills on buildings based on 1954 assessments.

The Council has the right to pass and the Mayor has the right to approve such an increase in the millage, which would be a 25 percent rise in the real estate tax levy. We must consider what such an increase, or any major part of it, would do to the basic values of the community, and to our hopes for continued growth and development in the city, with all it means in employment, broader resources, economic security, and—of direct concern to us—expanding tax base. We must thoughtfully judge the consequences of our choice. We have seen that the redevelopment of Pittsburgh has stimulated new values which have increased our assessments from a low

of \$961,462,404 in 1947 to an anticipated base of \$1,115,500,000 for 1954.

If our economy were free of inflation, the rise in values would have made the city's fiscal problems easy of solution.

Our action should not be such as to destroy the prospects for continued gains.

We must also keep in mind our objective of increasing the opportunities for home ownership in Pittsburgh, and we would naturally keep in mind the clear expression of popular sentiment on real estate taxation as expressed in the referendum on school taxes held on October 6.

It was in recognition of the problems of the water supply system, but also in recognition of the growing fiscal stringencies in city government, that we based the 1953 budget upon the proposed transfer of the water system to a municipal authority. As we well know, the proposal was shelved by the Authority itself because of the mounting interest rate and difficult bond market brought about by the hard money policy of the National Administration. This policy has since softened with a favorable effect on the bond market, but the fluctuations in the nation's credit course are not such as to make any reliance upon an advantageous water transfer a sure and certain thing.

In any event, the inflationary pressure since the authority proposal was first submitted to us by a citizens' study commission has made even the most advantageous transfer somewhat less than the whole answer to the city's problems. A transfer proposal would now have to be accompanied by some increase in millage, and perhaps some increase in water rates, to cover the city's fiscal requirements over any long period of time.

The best laid plans of mice and men often go wrong, and it now appears that the water transfer, which under conditions existent in December, 1952, would have solved so many of our problems, has developed disadvantages which cannot be conscientiously ignored.

Circumstances therefore bring us to a consideration of possible revenue sources for the city other than the tax on real property. The city is already levying an amusement tax, a personal property tax, and a mercantile tax—all of which, like all taxes, have admitted inequities.

The only other substantial tax source permitted to the city under state legislation would be a tax on earned income, with a ceiling of one per cent.

The inequity in this tax is that it cannot be legally graduated according to amount of income, and that exemptions cannot be permitted. For this reason, I personally and many of our colleagues in the Democratic Party and in Council have opposed it over the years, although we did endorse it for county purposes in 1949.

By defeating the proposal for a Constitutional Convention at the November election, the people of Pennsylvania have effectively ruled out any prospect of amendment of the state constitution to provide a graduated tax.

Therefore, we must consider the earned income tax as it is, rather than as we might wish it to be.

As it is, it would be a tax on earned income, deducted by the employer, and would affect non-residents as well as residents of the city. It would also be levied against the earned income of unincorporated businesses, and professional men would of course be liable for the tax just as are employed persons. It would not be levied against pension payments, social security and relief grants, income from investments, and so on, since these things are not earned income as construed by the law.

At one percent, it would yield an estimated return of between \$9,000,000 and \$10,000,000 in a full year's application.

The legal decisions on the tax are very detailed and comprehensive since almost 300 Pennsylvania communities impose the tax.

The yield from an earned income tax would obviously be sufficient to meet the city's present budget problems, and

would probably lead to a review of the whole municipal tax structure, with compensating changes in other taxes after some actual experience in collection and returns.

It might also permit a highly desirable program of pay-as-you-go improvements in the city's water supply and street systems.

There is no escaping the fact, however, that any addition to the tax burden of the people adds another element to the cost of living, and should be most reluctantly accepted by the officials with responsibility for imposing it as well as by those who must pay it from their own productivity.

The Collector of Internal Revenue sends \$2,000,000,000 a year from the Pittsburgh office to the National Treasury, and with such a tax weight imposed from Washington for national purposes there is not too much left for local uses important to our daily lives as they surely are.

The state then interposes its taxing power and draws into its treasury more than \$60,000,000 from Pittsburgh people—of which less than 10 percent comes back to the city and school district.

We have not even been able to collect the \$500,000 annually which the state is morally committed to pay in support of our program of public health.

With the whole picture of taxation what it is today, it becomes rather pointless to talk about "soaking the rich" or anybody else.

We simply have to examine the city's needs and determine the best course for its people and their future.

Refinancing of debt can only be justifiable if a new income source is around the corner. I cannot see it properly applied in the 1954 budget for the general reasons that no such revenue windfall is in prospect and that it would merely make our problem worse in the immediate future and for the specific reason that the amount of maturing electoral bonds is insufficient to solve our fiscal problem, even if it were all refunded.

We must classify such suggestions, in our present circumstances as ill-informed or deceitful.

We have every reason to insist on the tightest kind of economy and I would be the last to say that every city employee is one hundred percent efficient or that every city service is being performed at all times with complete satisfaction from the standpoint of cost as well as product.

However, we have the cold fact to face that we cannot gain comprehensive savings in the budget without cutting our entire areas of service. It would, of course, be possible for the city to exist without libraries, or parks, or a tuberculosis hospital, but I don't think it would be the kind of city we are trying to build in Pittsburgh.

The most important economies we can make, as a rule, are those which initially cost us more money for mechanization or improved equipment.

For instance, we can dispose of refuse more cheaply in sanitary fills than by incineration, and we should speed up our program to do so.

As another example, electrification of pumping stations in the water supply system will produce more economical operation.

But such economies obviously require a substantial capital outlay at the very start.

Nor should we automatically accept the addition of a full complement of 191 policemen and 110 firemen to make up man hour losses without the fullest review of manpower assignments in the

two bureaus. As an illustration, I am recommending in the budget the re-assignment of the mounted policemen to more productive, if less picturesque, police duty. In this regard, however, there is a point of risk beyond which we must not go. We must supply adequate police protection in our neighborhoods, traffic control on our streets, and fire protection throughout the city.

We have a mutual task of great responsibility.

As I know the Council of Pittsburgh, the members will meet the task with wisdom and courage, and with full recognition of the best long-term interests of the city and its people.

As Mayor, I will work with you as we have done in the past—in the spirit of cooperative effort which has led to so many good things for Pittsburgh.

We have a trying and exacting problem. I am sure that our solution will be sound, and will carry the city through this very troublous time. We have no easy choices.

But Pittsburgh has not been built and now, in our times, is not being rebuilt the easy way.

MOTIONS AND RESOLUTIONS

The Chair:

Members of Council: We have with us today a former member of this Body, Mr. Edward J. Leonard. I am sure we would be pleased to have a few remarks from him.

Mr. Leonard.

Mr. President: I am glad to be back with my old colleagues and friends. Since I was here last, I have had the opportunity of traveling throughout the Pacific. I was on a defense program with the American Secretary of Labor and visited Hawaii, the Fiji Islands and Guam and also had the opportunity of representing the American Federation of Labor on the Labor Management Committee on the Nevada Atomic Energy grounds, and I have always said that I was able to do this because of the experience I received with you gentlemen over many years. I think it is one of the finest opportunities that any man or woman could have who chooses to represent organized labor. That experience gives one an opportunity to listen to both sides of a question, and I know that my experience here is of great assistance to me in serving as I am today.

We are confronted with an awful lot of unemployment due to the change to three-dimension pictures. It is something like it was in 1928 when the change took place from silent pictures to talking pictures. There are more than 85,000 people employed in

the studios, but today I do not think there are 40 percent employed. On the west coast I would say that 60% of the theatres are remodeling to take care of the moving picture industry, and the hopes are high that they will come back better than ever.

Everywhere I go I carry the name of Pittsburgh and I am very proud to do it. Everywhere I am introduced, I am introduced as a former member of the Council of the City of Pittsburgh, Pennsylvania. Your program of rejuvenation of the City gets more publicity throughout the Country and even over in Honolulu the question was asked by Mayor Don Wilson, who happens to be a friend of your Mayor here, all about the Pittsburgh Redevelopment Program. When you run into anybody on the West Coast, that is always the first thing they ask about.

They have quite a smog problem in Los Angeles that creates an eye irritation. They come to me and say "Why don't you do what they did in Pittsburgh?" And I say, "No thanks, there is no coal problem in Los Angeles." In the East it is the soft coal industry, but on the west coast they don't know what soft coal is. They do not have half the problem in Los Angeles that you had in the City of Pittsburgh.

Pittsburgh is right out in front and it is a good city to be able to say you are from—the great industrial city of Pittsburgh.

One of the greatest things I miss is the friends I made here in Pittsburgh, particularly you members of Council, in which body I served fourteen years.

Thank you, Mr. President.

The Chair:

I think I express the thought of all the members of Council when I say

we wish you luck and many happy years to come.

Mr. Wolk:

Mr. President: On account of the meeting that all the members of Council want to attend tomorrow (Tuesday) at 2:00 o'clock, P. M., I hope I can get the unanimous consent of Council that the various Committee meetings, instead of meeting at 2:00 o'clock, P. M., Tuesday, December 8, 1953, will meet at 2:00 o'clock, P. M., Wednesday, December 9, 1953.

Mr. Wolk moved

That the unanimous consent be given that the Committee meetings of Council be held on Wednesday, December 9, 1953, at 2:00 o'clock, P. M., instead of Tuesday, December 8, 1953 at 2:00 o'clock, P. M.

Which motion prevailed.

Mr. Davis moved

That the Minutes of Council of Monday, November 30, 1953, be approved.

Which motion prevailed.

Mr. Fagan:

Mr. President: Twelve years ago today the Japanese Government made a sneak attack on our Government at Pearl Harbor, and I think, out of respect and love and admiration for the men who made the supreme sacrifice that a motion would be in order at this time to stand in silent prayer for those who made the supreme sacrifice, and that this Council adjourn out of respect to the men and women who served in World War I and World War II. I so move, Mr. President.

Which motion prevailed.

And

Council adjourned.

Mr. Counahan:

Mr. President: I think I should have an opportunity now to make a statement or two before the final passage of this bill.

In Committee and right on through, I have voted No on Bill No. 3604, and I would like you to understand the reasons why I voted No.

We have various means of raising revenue to conduct the business of the City of Pittsburgh. We can increase the millage on land and buildings and the water rates. We can re-

finance our outstanding peoples bonds and we can turn over our water system to an Authority. And, we have the earned income tax, commonly called the "Wage Tax."

I am voting No on this bill because it will set the millage on real estate. I am opposed to the transfer of the water system to an Authority. Refinancing of bonds alone would not take care of the situation.

I am opposed to the earned income tax. Therefore, I am voting No on this particular bill because to vote Aye on this legislation would automatically put me in the position that I am in favor of the earned income tax, because, as I said, before, I am opposed to the other sources of revenue.

After studying and carefully considering all of these factors, I have come to the conclusion that an increase in millage and/or an increase in water rates, plus refinancing of Peoples bonds is the solution.

We all realize that refinancing may be postponing the day of reckoning and we may be confronted with the same situation next year, but I am of the opinion that we should do this for the ensuing year with the hope that things will level off so far as our financial structure is concerned.

After the Committee meeting I did not make a public statement for the reason that I thought it should be made here before I make it on the outside.

And the bill, as read a second time, was agreed to. (Mr. Counahan voting No.)

And the bill was read a third time and agreed to. (Mr. Counahan voting No.)

And the title of the bill was read and agreed to. (Mr. Counahan voting No.)

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken, agreeably to law, and were:

Ayes:—Messrs.

Davis	Schifano
Dinan	Weir
Fagan	Wolk
Rodgers	Gallagher (Pres't)

Noes: Mr. Counahan.

Ayes 8. Noes 1.

MOTIONS AND RESOLUTIONS

Mr. Fagan:

Mr. President and Members of Council: I arise to a point of personal privilege so that I may inform my fellow Councilmen and place in the record of the Council the facts in a situation that has arisen here in the last several days.

It is well known to all of the citizens of our community that a number of Unions that are affiliated with the American Federation of Labor are striking at several department stores and some furniture stores in the City of Pittsburgh and Allegheny County and in some of the surrounding counties.

My son, Thomas L. Fagan, happens to be the President of Local Union 249 of the Teamsters. It has a Vice President, a Secretary-Treasurer, a Board composed of several members and several Trustees and other officers who are elected by the rank and file of this organization.

The strike, which is now in progress, is due to the fact that their employers have refused to discuss either hours, wages or working conditions or any of the elements that enter into the service that they perform for the department stores or the furniture stores or anybody else by whom they might be employed. There are members of the Carpenters' Union, members of the Electricians' Union, members of the Cooks' and Waitresses' Union and there are service workers and a number of other men and women who have decided that because they could not get a contract they would cease work, which is a constitutional guarantee of the Constitution of the United States, also of the great Commonwealth of Pennsylvania, and aside from that there is a law called the Labor Relations Act, and there is also the State Labor Relations Act, better known as the McGinnis Law, which has been amended several times since it was enacted.

Apparently on the picket line, one Thomas L. Fagan was arrested and there has been a great hullabaloo

about it. You would think it was something out of the ordinary, because some forty years ago his grandfather was arrested for being on the picket line of the Coal and Iron Police when the police were evicting a fellow by the name of Adamson, and my father, being a red-blooded American, rushed in and tried to tell the gentlemen who were carrying out the brutal act.

Thomas L. Fagan's father has been taken into custody several times when I was fighting the iron police long before there was a Federal Relations Act either in the Federal Government or in the State.

I am happy to say there never has been a Fagan go to jail for larceny or stealing or anything of the kind, and when they went to jail they went because they wanted to make this a better place to live, work and play.

Lt. Gerald B. Fagan paid the supreme sacrifice, and Thomas was a great boy when he was over there saving life. He and his comrades were great guys then. Only last year, without solicitation, Thomas L. Fagan was chosen as one of the 100 promising citizens of the City of Pittsburgh, and to me, as his father, he is just as promising, as he was when he was with General Patch and when he went through the Siegfried Line and was decorated by his Government for the wonderful things that he did. That is the Thomas Fagan that is now being castigated and scandalized and villified.

I first heard of the situation that took place the other evening in Pittsburgh—the shifting of or changing of Lieutenant Daniel Shussett—from a man by the name of Hood, who is a reporter for the Pittsburgh Press. I was in conference on Saturday morning and they sent for me and asked me if I would come out and talk to Mr. Hood. I came out and he asked me if I had heard about the situation. That was the first time I heard anything had taken place. An hour or so later, I came out and met Charlie Prine, of the Sun-Telegraph, and he asked me the same thing, and I gave him the same answer. The first thing,

I knew, when I was asked by Mr. Hood, it came to me like thunder out of a clear sky. I knew nothing about it. I can say, without fear of successful contradiction that I never talked to the Mayor or never talked to his Secretary, Charlie McCarthy, or never talked to the Superintendent of Police nor his Assistant Superintendent or anybody else, and yet it would appear as an editorial in the Monday morning's December 21st, 1953, Pittsburgh Post-Gazette—"a funny coincidence." I have never talked to any representative of the Pittsburgh Post-Gazette about this situation in any way, shape or form. On Saturday evening, after listening to the Toledo-Duquesne Basketball game, at 11:00 o'clock, I tuned in Station WJAS and heard Ken Hildebrand, their broadcaster, say that he (Fagan) denied that he had anything to do with the shifting of the Lieutenant. I didn't have to deny it because I did not, in any way, shape or form talk to anybody about this Lieutenant or any other Lieutenant, because, as one member of Council, I can safely say, without fear of successful contradiction that I am not responsible and never have been responsible for the appointment or promotion of any Captain, Inspector or any one else in the police department. After all, in the final analysis, the Mayor of the City of Pittsburgh, David L. Lawrence, is the administrator. We have the Department of Public Safety, and we have a Director and we have the Superintendent of Police and Assistant Superintendents of Police who look after the safety and health and welfare of the citizens of the City of Pittsburgh.

If I were guilty of anything I would be glad to admit it. My life is an open book—when I was Labor, the Government and now as a member of City Council. My life will stand the acid test any time, any place. When I have anything to say I have the courage, both morally and physically, thank God, to say it, whether it is on the street corner or in this Council Chamber or anywhere else. But I, as an American citizen, as a husband and as a father, do not like people hitting below the belt. If I had gone

in and talked to the Mayor I would be only too happy to admit it. My son, Tom, went to the Mayor and talked to him, and so did Melvin Humphreys. I talked to Tom just before I came in here, at 1945 Fifth avenue, but from the time he had been arrested until the time this story broke I had never had any discussion with Tom, with the Mayor or with anybody else connected with the situation. And I say, and say just as candidly as I know how, I think Tom is able to take care of himself. Like millions of other boys and girls and men and women, who went through World War II, he took care of himself. He has been through a lot of scraps since he came back from the War and he has had a lot of prominent citizens of the City of Pittsburgh say "Tommie," that is what they call him, "is a fine man, and a gentleman."

No later than November 27th, 1953, the night they gave the banquet to David McDonald, International President of the United Steel Workers of America, I happened to be at the Roosevelt Hotel. Prior to going to the banquet hall I was up in one of the rooms, I think it was 822, or something like that, listening to the Notre-Dame-Southern California Football Game. Nick Unkovic, who is a member of a very important law firm—out of a clear sky, said, "You trained your son very well." I said, "I don't know whether I trained him or not—I tried to make a man out of him. I tried to show him the right way to live—to live morally right and to represent the people whom he has the honor to represent." Unkovic said he was a gentleman, a fair fellow to deal with. I have had a lot of other people and business men of the City tell me what a fine boy he is, and naturally, as his father, I am proud of it. I am proud of him and all of my other sons, because they are men of honor, men of ability, and I do not want them to do anything that would injure the good name of their forbears, because there isn't any doubt about

it, for a long time, since back in the days of the Knights of Labor the family of "Fagan" has been doing everything in their power to make this country of ours a little better, and we are not interested in shorter hours, and more money and better working conditions but we are interested in making it a better place in which to live and work.

I am only trying to make it very clear here that I, in no way interfered or discussed the matter with any representatives of the City government, and I also want to make it very plain that in my political life whether in labor or in government—I want anybody to investigate and find out I have never in my life asked a public official to do anything wrong or show favor towards my organization or the men I had the honor to represent. The only thing I ever asked and I am asking for it again, is a square deal for the members of organized labor throughout the entire Nation. That is all they are entitled to and that is all any sensible man will ask for, and I am sure that is what my son has asked.

I am sorry I have taken all this time, but I thought it was necessary to make it clear that I in no way, shape or form either knew or discussed with the Mayor or anybody else connected with his office or the Superintendent of Police, and what was done was done without me knowing anything about it.

Now, I am going to close by thanking the members of Council for listening to what I have had to say with reference to this situation.

Mr. Davis moved

MOTIONS AND RESOLUTIONS

The Chair presented

No. 3755.

Pittsburgh, Pa.,
December 29, 1953.

To the President and
Members of City Council
Pittsburgh, Pennsylvania.

Gentlemen:—

I hereby tender my resignation as a member of Council of the City of Pittsburgh effective at the close of business on Thursday, December 31, 1953.

Respectfully yours,

William H. Davis.

Which was read.

Mr. Weir:

Mr. President: In view of the fact that I was up in Common Pleas Court yesterday and saw Mr. Davis sworn in as Sheriff of Allegheny County, I do not suppose there is any purpose in urging him to stay here and give up that job. He has already inferred that he prefers it.

I think I express the feeling of everybody here that we will accept this resignation with great regret.

Mr. Weir moved

That the resignation of William H. Davis be accepted

Mr. Wolk:

Mr. President: In seconding the motion, I want to express myself and say that I am very happy that he has been elected Sheriff of Allegheny County, and know that he will make a very good Sheriff.

Mr. Fagan:

Mr. President: Of course, the City's loss is the County's gain. It has been both a privilege and a pleasure to work with William H. Davis as a mem-

ber of City Council. I knew him long before he came to Council, when he was Chief of the Fire Department. He has been a fine, outstanding public servant in all of the capacities in which he has served the people of the City of Pittsburgh.

I feel confident that Mr. Davis will make a great Sheriff for the County of Allegheny—one of the great counties in the Commonwealth of Pennsylvania.

Naturally we are sorry to see Bill leave City Council. But as Freddie Weir has said, it is a promotion and he will now be the highest peace officer of the County of Allegheny; responsible for the safety of life and property of all of the people in this great County of ours. His training in public life qualifies him in every respect for the position to which he aspired and to which the citizens of Allegheny County elected him by an overwhelming majority.

I wish, along with my colleagues in Council, that he will have a long and happy tenure in the Sheriff's office and that he will be blessed with health and strength both of body and mind to carry out the important duties of that office for the people of Allegheny County and the City of Pittsburgh.

Mr. Dinan:

Mr. President:

Mr. Fagan stated that he has known Bill Davis ever since he was Chief of the Fire Department. I have known him since he was a seven spot on the Fire Department. He and I have been not only political friends but personal friends for many years.

The only thing I want to ask is, that he take everything out of that desk drawer, because, as we sit in alphabetical order, I will be moving over to his seat and I do not want him to leave any secrets.

Seriously, I know that he has all the necessary qualifications for the office of Sheriff and I assure you, Bill, that my sentiments are the same as the other members of Council. We wish for you and your good wife everything that is good. Feel free to come back and visit with us.

Mr. Counahan:

Mr. President: I, too, wish to congratulate my good friend, and I know if he does the job there as well as he has done in Council he will be doing a very good job.

It just came to my mind when Councilman Dinan said he was going to move alongside me, I just wonder how I stand in this.

You have been a very good Councilman, Bill, and I am sorry you are leaving Council. I wish you all the luck in your new position.

Mr. Schifano:

Mr. President: Inasmuch as six Councilmen have expressed themselves, and Mr. Rodgers and I are the only two left, I think it is fitting that we extend to Bill our heartiest congratulations in being elected Sheriff of Allegheny County.

I am going to miss Bill at the Committee table, because he was always borrowing a pen from me. I hope somebody gives him a pen so he will not have to borrow one.

Mr. Rodgers:

Mr. President: I wish to echo the remarks of my colleagues, and to you, Bill, much success. I will be seeing you in the Sheriff's office.

The Chair:

Mr. Davis: I, too, want to congratulate you on your election as Sheriff. I know what tremendous responsibilities you will have and know that you will meet them as you did when you were Chief of the Fire Department.

I wish you every success in your new office and may God bless you so that you will have many happy days in your new position.

Mr. Davis:

Mr. President: I want to thank my colleagues, each and every one of you, for the kindness shown me when I came into Council and the advice you gave me. I tried to pass it on to the gentleman on my right here. Of course, he gets me into a lot of trouble by his calls and keeping me out late at night, and it is not all electioneering either.

I do want to say that it has been a pleasure working with you and I hope you will all remain in Council for many years to come.

And the question recurring on the adoption of the motion, the motion prevailed.

Mr. Schifano moved

That the Minutes of Council

of Monday, December 21, 1953, be approved.

Which motion prevailed.

Mr. Dinan moved

That Council adjourn sine die.

Which motion prevailed.

And

Council adjourned.

Whereas, The said Authority desires to engage the City of Pittsburgh to prepare certain plans and surveys and to render certain technical advice and assistance in connection with the aforementioned redevelopment undertaking and the City is willing to render the services and to enter into a formal contract upon the terms and conditions as set forth hereinafter,

Now, Therefore,

The Council of the City of Pittsburgh hereby enacts as follows:

Section 1. That the Mayor and the Chairman of the City Planning Commission, acting on behalf of the Department of City Planning, be and they are hereby authorized and directed, on behalf of the City of Pittsburgh (hereinafter referred to as the "Contractor") to enter into an agreement with the Urban Redevelopment Authority of Pittsburgh (hereinafter referred to as the "Local Public Agency") containing the following provisions:

(1) Employment of Contractor. The Local Public Agency hereby engages the

Contractor and the Contractor hereby agrees to perform the professional services hereinafter set forth in connection with the surveys and plans of the Local Public Agency under the Contract for Advance.

(2) **Area Covered.** The Contractor shall perform all the necessary services provided under this Contract in connection with and respecting the following area situate in the City of Pittsburgh and hereinafter referred to as the Redevelopment Area or Area:

That area known as the Lower Hill Redevelopment Project, Redevelopment Area No. 3, which is bounded approximately as follows:

Beginning at the intersection of Fifth avenue and Sixth avenue, thence northwesterly on Sixth avenue to Wylie avenue, thence easterly to Tunnel street, northerly on Tunnel street to intersection of Webster avenue and Bigelow boulevard, thence northeasterly on Bigelow boulevard a distance of approximately 2800 feet, thence southeasterly to Ridgway street, thence northeasterly on Ridgway street approximately 125 feet, thence southeasterly on Manilla street to Bedford street, thence southwesterly on Bedford street to Crawford street, thence southeasterly on Crawford street to Pride street, south on Pride street to Fifth avenue, thence west on Fifth avenue to place of beginning.

(3) **Scope of Services.** The Contractor shall do, perform and carry out, through the City Department of City Planning under the direction of the City Planning Commission, with the cooperation and assistance of the Department of Public Works, and of other Departments as may be necessary, in a satisfactory and proper manner, as determined by the Local Public Agency, the following:

(a) Conduct investigations and surveys and make certain planning studies, maps and plans, cost and other estimates—the same being a continuing part of preparations for redevelopment of the area. Such work shall include re-examination and re-study of the preliminary plan

of new street pattern and future land use which accompanied the City Planning Commission of the City of Pittsburgh's certification of the Redevelopment Area, with respect to subordinate areas designated for particular land uses as originally indicated and any other appropriate uses not then designated; and the presentation by plan and map of a more fully developed redevelopment plan which can be accepted as physically feasible, practicable with respect to general circulation of vehicles and pedestrians, appropriate in its required regrading for streets of suitable gradient and building sites for the various and alternative types of residential and other structures, consistent and relatively economical with respect to subsurface utilities (whether new or replaced facilities or combination thereof) adaptable to efficient circulation of traffic and the routing of surface mass transportation units; provision for off-street automobile parking facilities for both local use and interim overflow from the downtown business district; and in connection with the foregoing, such sketch studies, engineering data and topographic cross-sections and elevations, test borings to check on conditions for foundations and subsurface drainage; proposed prescription of building coverage and height and bulk for each block in relation to the use thereof, and in addition for the housing portion of the plan such proposed ranges of density of family occupancy for each block as are consistent with (1) alternative building types, (2) residential zoning density standards contained in the regulations of the proposed zoning ordinance, and (3) the resultant numbers of families in relation to school and playground facilities within or adjacent to the Redevelopment Area.

(b) Consult with and advise the Local Public Agency and other contracting parties engaged thereby, in and during the conduct of special investigations, including (a) the making of a market analysis of the affected area as the same is proposed to be redeveloped in accord-

ance with a redevelopment plan recommended or to be recommended by the City Planning Commission, (b) the preparation of a study and report forecasting the probable re-use values of all the land within the area covered by the redevelopment plan whether the same are to be cleared or are to continue to be occupied by existing buildings. Further, such counsel and advice shall be given by the Department of City Planning in the event that it is determined to prepare aerial mapping of topography of the redevelopment area in accordance with specifications of said Department, and (c) concurrently and integrated with the foregoing, collaboration and mutual adjustment thereof with pertinent aspects of related investigations being conducted by the Local Public Agency through other agencies or firms with respect to the market analysis of the area and the re-use value appraisals as the latter may be concerned with various types and intensities of land use and building bulk. Also, collaboration and mutual adjustment with the judgments, advice and suggestions, or other assistance made available by the City Departments of Public Works, Health, and Parks and Recreation, and the Pittsburgh Board of Public Education, the Pittsburgh Housing Authority, the Pittsburgh Parking Authority, and representatives of institutions of any type proposed to remain within the area or proposed to be newly located therein.

(4) Data to be Furnished to Contractor. The Local Public Agency will provide for test borings to the extent that it deems desirable and necessary.

(5) Personnel. (a) The Contractor represents that he has, or will secure at its own expense, all personnel required in performing the services under this Contract. Such personnel shall not be employees of or have any contractual relationship with the Local Public Agency. (b) All of the services required hereunder will be performed by the Contractor or under its supervision and all personnel engaged in the work shall be fully qualified and

shall be authorized or permitted under state and local law to perform such services. (c) None of the work or services covered by this Contract shall be sub-contracted without the prior written approval of the Local Public Agency.

(6) Time of Performance. The services of the Contractor are to commence upon the execution of this Contract and shall be undertaken and completed in such sequence as to assure their expeditious completion in the light of the purposes of this Contract, but in any event all of the services required hereunder shall be completed within six months from the date of the Contract.

(7) Compensation. The Contractor shall be paid as compensation the salary and expenses incurred by it in connection with the performance of its duties under said Contract. The total amount of said salary expenses paid under the Contract shall not exceed the sum of \$19,789.16. In addition to the salary expenses, the Contractor shall be reimbursed for all expenses incurred by it in connection with the performance of its duties under said Contract for the purchase of supplies, printing and similar expenses. The total amount of said expenses shall not exceed the sum of \$1,500.00. No monies shall be paid the Contractor for travel and subsistence expenses.

(8) Method of Payment. The salaries paid by the Contractor to the classes of employees described in Exhibit "A" hereof, which shall constitute the entire compensation to be paid the Contractor under this Contract, shall be paid the Contractor in monthly installments one month after the commencement of the work upon receipt of a requisition for payment from the Contractor specifying the names of the persons employed by it in the position described in Exhibit "A" hereof, the number of hours employed, the salaries paid such employees and certifying that it has performed the work in conformance with this Contract and that said work is commensurate with the monthly payment due it. The reimbursable ex-

penses incurred by the Contractor shall be paid it in like monthly installments in an amount representing the authorized expenses incurred during the preceding monthly period upon proper requisition with supporting vouchers therefor.

(9) **Termination of Contract for Cause.** If, through any cause, the Contractor shall fail to fulfill in timely and proper manner his obligations under this Contract, or if the Contractor shall violate any of the covenants, agreements or stipulations of this Contract, the Local Public Agency shall thereupon have the right to terminate this Contract by giving written notice to the Contractor of such termination and specifying the effective date thereof, at least five days before the effective date of such termination. In such event, all finished or unfinished documents, data, studies, and reports prepared by the Contractor under this Contract shall, at the option of the Local Public Agency, become its property and the Contractor shall be entitled to receive payment of costs already incurred for any satisfactory work completed on such documents.

Notwithstanding the above, the Contractor shall not be relieved of liability to the Local Public Agency for damages sustained by the Local Public Agency by virtue of any breach of the Contract by the Contractor and the Local Public Agency may withhold any payments to the Contractor for the purpose of set-off until such time as the exact amount of damages due the Local Public Agency from the Contractor is determined.

(10) **Delays.** Any delays that may occur due to causes beyond the control of the Contractor shall postpone the date for said definitive conclusion for a period equal to the aggregate time of such delays. Any such extensions of time shall be promptly recognized, in each instance, by exchange of memoranda by the parties to this Contract.

(11) **Termination for Convenience of Local Public Agency.** The Local Public Agency may terminate this Contract any time by a notice in writing from

the Local Public Agency to the Contractor. If the Contract is terminated by the Local Public Agency as provided herein, the Contractor will be paid an amount which bears the same ratio to the total compensation as the services actually performed bear to the total services of the Contractor covered by this Contract, less payments of compensation previously made. Provided, however, that if less than sixty per cent of the services covered by this Contract have been performed upon the effective date of such termination, the Contractor shall be reimbursed (in addition to the above payment) for that portion of the actual out-of-pocket expenses (not otherwise reimbursed under this Contract) incurred by the Contractor during the Contract period which are directly attributable to the uncompleted portion of the services covered by this Contract. If this Contract is terminated due to the fault of the Contractor, Paragraph 9 hereof relative to termination shall apply.

(12) **Changes.** The Local Public Agency may, from time to time, request changes in the scope of the services of the Contractor to be performed hereunder. Such changes, including any increase or decrease in the amount of the Contractor's compensation, which are mutually agreed upon by and between the Local Public Agency and the Contractor, shall be incorporated in written amendments to this Contract.

(13) **Prevailing Salaries and Hours of Work.** Not less than the respective salaries prevailing in the locality as determined pursuant to the schedule attached hereto and made a part hereof entitled "Determinations of Prevailing Salaries for Architects, Technical Engineers, Draftsmen and Technicians under Section 109 of the Housing Act of 1949," and made in conformance with the Salary Ordinance of 1953 of the City of Pittsburgh, shall be paid to persons, in the event of their employment, in the respective occupations listed therein, employed in the performance of work under this Contract. Time-and-a-half shall be paid to all architects, technical engineers, drafts-

men and technicians engaged in the work under this Contract, for hours worked in excess of eight hours in a day or forty hours in a week. In the event that the state or local laws should require overtime compensation in excess of the foregoing provision for any or all of the classes of employees specified, whether on the basis of a shorter workday or week, higher premium pay or both, payment of such higher overtime compensation shall be made to such employees in accordance with such law in lieu of the time-and-a-half provision herein provided for. The Contractor shall furnish to the Local Agency with each statement submitted for services rendered, certification as to compliance with the provisions of this paragraph with respect to his employees and shall furnish similar certification of his subcontractors with respect to their employees engaged on the work under his Contract. The provisions respecting overtime compensation herein set forth shall not apply to executive, supervisory and administrative employees.

(14) **Withholding of Salaries.** If, in the performance of this Contract, there is any underpayment of salaries, the Local Public Agency shall withhold from the Contractor out of payments due to it an amount sufficient to pay to employees underpaid the difference between the salaries required to be paid under the Contract and the salaries actually paid such employees for the total number of hours worked. The amounts withheld shall be disbursed by the Local Public Agency for and on account of the Contractor to the respective employees to whom they are due.

(15) **Non-Discrimination.** In the performance of this Contract there shall be no discrimination against any employee or applicant for employment for the work covered hereby because of race, creed, color or national origin.

(16) **Interest of Members of Local Public Agency.** No member of the Local Public Agency shall participate in any decision relating to this Contract which affects his personal interests or the interests of any corporation, partnership or association in which he is di-

rectly or indirectly interested; nor shall any member, officer, agent or employee of the Local Public Agency have any interest direct or indirect in this Contract or the proceeds thereof.

(17) **Assignability.** The Contractor shall not assign or transfer any interest in this Contract, whether by assignment or novation, without the prior written approval of the Local Public Agency thereto; provided, however, that claims for money due or to become due the Contractor from the Local Public Agency under this Contract may be assigned to a bank, trust company or other financial institution without such approval. Notice of such assignment shall be furnished promptly to the Local Public Agency.

(18) **Interest to Contractor.** The Contractor covenants that it presently has no interest and shall not acquire any interest direct or indirect in the above project area or areas or any parcels therein or any other interest which would conflict in any manner or degree with the performance of his services hereunder. The Contractor further covenants that in the performance of this Contract no person having any such interest shall be employed.

(19) **Ownership of Reports.** Copies of all reports, designs, drawings, and other technical data developed by the Contractor in relation to the project are to be given by the Contractor to the Local Public Agency and shall become its property, and the Local Public Agency shall have full right to use these instruments for any purpose whatsoever, without any claim on the part of the Contractor for additional compensation.

(20) **Officials Not to Benefit.** No Member of or Delegate to the Congress of the United States of America, and no Resident Commissioner shall be admitted to any share or part hereof or to any benefit to arise herefrom.

THIS AGREEMENT, dated for convenience of reference as of the first day of February, 1952, by and among

CITY OF PITTSBURGH

(hereinafter sometimes called the "City"), a municipal corporation of the Commonwealth of Pennsylvania located within the County of Allegheny,

**ALLEGHENY COUNTY SANITARY
AUTHORITY**

(hereinafter sometimes called the "Sanitary Authority"), a body corporate and politic of the Commonwealth of Pennsylvania duly created and existing under the provisions of the Municipality Authorities Act of 1945, as amended,

**BOROUGH OF BLAWNOX
TOWNSHIP OF O'HARA
BOROUGH OF VERONA
TOWNSHIP OF PENN**

(hereinafter sometimes called singly "Blawnox," "O'Hara," "Verona" and "Penn," indiscriminately the "Municipality," and collectively the "Municipalities"), municipal corporations or political subdivisions of the Commonwealth of Pennsylvania located in the northeastern part of Allegheny County, and

**ALLEGHENY COUNTY WORK HOUSE
AND INEBRIATE ASYLUM**

(hereinafter sometimes called the "Workhouse"), a Pennsylvania corporation created by and existing under the provisions of the Act of Assembly of February 1, 1866, P. L. 8, as supplemented and amended, with premises located adjacent to the Borough of Blawnox,

WITNESSETH:

Whereas, The City, the Municipalities and the Workhouse have heretofore constructed certain sewers but do not have facilities for the treatment and disposal of sewage, and sewage entering their sewers is being discharged without treatment into the rivers and streams; and

Whereas, A number of municipalities adjacent to the City have connected their sewers with the City's sewerage system; and

Whereas, There are many industries in the Pittsburgh area which are discharging large quantities of industrial wastes without treatment either directly into such rivers and streams or indirectly through the sewers of the mu-

nicipalities in which they are located; and

Whereas, Such discharge of untreated sewage and industrial wastes has polluted the rivers and streams, and such pollution has made the rivers and streams undesirable as sources of public water supply and unsafe for bathing, boating and other recreational purposes; is detrimental to business and commercial interests in the Pittsburgh area; and constitutes a serious menace to the health and safety of the inhabitants of the City, the Municipalities, the Workhouse and such adjacent municipalities and industries; and

Whereas, The Sanitary Water Board of the Commonwealth of Pennsylvania (hereinafter sometimes called the "State Board"), acting to abate stream pollution, pursuant to authority conferred upon it by the Act of the General Assembly of Pennsylvania approved June 22, 1937, P. L. 1987, as amended, ordered and directed sewered municipalities an waterfront corporations in Pennsylvania, including the City, the Municipalities and the Workhouse,

(a) to discontinue the discharge of untreated sewage into the waters of the Commonwealth, and

(b) to submit, either alone or jointly with any mutually interested municipality or municipalities, construction plans and specifications for the necessary sewers, pumping stations and treatment works to collect and convey its sewage to a suitable site or sites and provide treatment thereof; and

Whereas, The Sanitary Authority was organized by the County Commissioners of Allegheny County to collect, transport, treat and dispose of the sewage and industrial wastes of all the municipalities in the County and thus enable them to comply with the orders of the State Board; and

Whereas, After careful consideration of alternative projects the City selected one called Project Z, and pursuant to such decision executed an agreement

with the Sanitary Authority for the preparation of detailed construction plans and specifications for a Sewage Disposal System to serve at uniform rates an area comprising the City and all or portions of numerous adjacent municipalities, but excluding the Municipalities (except for parts of O'Hara and Penn) and the Workhouse, and agreed to advance to the Sanitary Authority, as a loan, the entire cost of such plans and specifications, estimated at Two Million (\$2,000,000) Dollars; and

Whereas, Except for a portion of O'Hara and a portion of Penn, which by separate Standard Municipal Agreements heretofore executed will be served by the Sewage Disposal System at Project Z rates, no arrangements have been made to treat and dispose of the sewage of the Municipalities or the Workhouse in compliance with the State Board's orders; and

Whereas, The City and the Sanitary Authority are willing that the Sewage Disposal System contemplated by Project Z be enlarged to provide sewage disposal facilities to serve the Municipalities and the Workhouse, if the Project Z rates will not be increased thereby and if the revenues derived from the Municipalities and their inhabitants and from the Workhouse, as provided in this Agreement, will pay for the added cost of serving them, including, without limitation, debt service on the Upper Allegheny bonds; and

Whereas, The preparation of construction plans for an enlarged Sewage Disposal System will be unjustified, and the plans for the extra sewage collection facilities to serve the Municipalities and the Workhouse will be valueless, unless they or their residents become legally bound to accept and pay for sewage collection and treatment service from the time service can begin until such time as the revenue bonds to be issued for construction shall be fully retired; and

Whereas, The securing of sewage service from the facilities of Project Z under the terms of this Agreement will result in much lower cost to the

Municipalities and their residents and to the Workhouse than would result from the construction and operation of separate or joint sewage disposal facilities for themselves alone; and

Whereas, The execution and performance of the present Agreement by the Municipalities will benefit the Municipalities and their residents and will constitute compliance with the orders of the State Board.

Now, Therefore, In consideration of the premises and the undertakings of each party to the others, the parties hereto, each intending to legally bind itself, its successors and its assigns, covenant and agree as follows:

1. As used in this Agreement—

a. The term "Project Z" shall mean the project contemplated by the City under its agreement of August 1, 1949, with the Sanitary Authority (of which agreement a copy has been furnished to each of the Municipalities and to the Workhouse), for the collection, treatment and disposal of the sewage of the City and certain adjacent municipalities by a single system at uniform rates.

b. The term "Standard Municipal Agreement" shall mean the tri-party agreement of December 1, 1949, for sewage service at uniform rates from Project Z executed severally in substantially identical form by the City, the Sanitary Authority and each of sixty-one adjacent municipalities, of which agreement a copy has been furnished to each of the Municipalities and to the Workhouse.

c. The term "Sewage Disposal System" shall mean the sewage collection, transportation, treatment and disposal system contemplated by the Agreement of August 1, 1949, between the City and the Sanitary Authority and by the several Standard Municipal Agreements of December 1, 1949, with added treatment plant capacity to handle the maximum quantity of municipal sewage emanating from the enlarged service area as estimated for the year 1960, and with interceptor sewers within the original service area enlarged to accom-

moderate the maximum foreseeable future quantity of such sewage (as estimated for the year 2000). The general layout is shown on Exhibit A attached to and made a part of this Agreement.

d. The term "Upper Allegheny System" shall mean the sewage interception and transportation system required to intercept the sewage of the Municipalities and the Workhouse and transport the same to a connection with the Sewage Disposal System at the eastern terminus of its Allegheny River interceptor sewer in the Borough of Aspinwall. The system shall consist of interceptor sewers, pumping stations, force mains, storm water control works, and appurtenant facilities, as shown generally on Exhibit B attached to and made a part of this Agreement. Such Upper Allegheny System shall include interceptor sewers of adequate capacity to accommodate the maximum foreseeable future quantity of municipal sewage of the Municipalities and the Workhouse (as estimated for the year 2000).

e. The "Sewage Agency" shall mean the agency, to be designated by the City pursuant to Paragraph 3 hereof, which will build and operate the Sewage Disposal System and the Upper Allegheny System.

f. The term "original service area" shall mean the area shown on the map marked Exhibit A attached to and made part of this Agreement (which includes a portion of O'Hara and a portion of Penn), and additional areas entitled by agreement with the City and the Sanitary Authority or with the Sewage Agency to receive sewage service from the Sewage Disposal System at Project Z rates.

g. The term "added service area" shall mean the entire service area of the Upper Allegheny System, comprising all three of the zones shown on Exhibit B attached to and made a part of this Agreement (encompassing Blawnox, the Workhouse and indicated portions of O'Hara, Verona and Penn), and any additions to any or all of such zones.

h. The term "enlarged service area"

shall mean the original service area plus the added service area.

i. The term "Project Z bonds" shall mean the revenue bonds to be issued by the Sewage Agency, the proceeds of which are used for constructing and putting into operation the Sewage Disposal System and for other purposes required under the several Standard Municipal Agreements, and all revenue bonds issued by the Sewage Agency to maintain, repair, improve, rebuild or extend the Sewage Disposal System.

j. The term "Upper Allegheny bonds" shall mean the revenue bonds to be issued by the Sewage Agency, the proceeds of which are used to construct and put into operation the Upper Allegheny System, which bonds may be secured by the provisions of a separate resolution or indenture and the pledge of the Upper Allegheny extra charges only or may be secured by the provisions of the same resolution or indenture as the Project Z bonds and, ratably with the Project Z bonds, by the pledge of all the revenues of Project Z and the Upper Allegheny System, and all revenue bonds issued by the Sewage Agency to maintain, repair, improve, rebuild or extend the Upper Allegheny System, howsoever such bonds may be designated when issued.

k. The term "sewage service charges" shall mean the Sewage Agency's charges for sewage collection, treatment and disposal service (sometimes herein called "sewage service"), whether calculated under the Project Z rates or under any of the three Upper Allegheny zone rates, and whether payable by the Municipalities or by their inhabitants using water in or on sewered premises therein.

l. The term "Project Z rates" shall mean the schedule of uniform sewage service charges of the Sewage Agency applicable throughout the original service area of the Sewage Disposal System, and comprising a portion of each of the several Upper Allegheny schedules of zone rates, based upon water usage in sewered premises (as set forth in Paragraph 14 hereof) and so calculated as to yield in the aggregate during each month or quarter year the

amount required in each such month or quarter year for paying all current administrative, operating, and maintenance expenses of the Sewage Agency in providing service within the original service area, and the interest on and the principal of all outstanding Project Z bonds and other Project Z obligations as the same become due and payable, and to create such reserves for such purposes as may be required by any resolution authorizing the issuance of such Project Z bonds or in any trust indenture securing the same.

m. The term "Zone 1" or "Upper Allegheny Zone 1" shall mean the area from which the sewage and wastes shall enter the Upper Allegheny interceptor sewer at the existing Blawnox sewer outfall, at the Squaw Run pumping station, or at any intermediate connecting point along the said interceptor sewer located on the right bank of the Allegheny River. The present approximate area of such Zone 1 is indicated generally on Exhibit B attached hereto.

n. The term "Zone 2" or "Upper Allegheny Zone 2" shall mean the area from which the sewage and wastes shall enter the said Upper Allegheny interceptor sewer located on the right bank of the Allegheny River at any point upstream from the existing Blawnox sewer outfall. The present approximate area of such Zone 2 is indicated generally on Exhibit B attached hereto.

o. The term "Zone 3" or "Upper Allegheny Zone 3" shall mean the area from which the sewage and wastes shall enter the Upper Allegheny interceptor sewer system on the left bank of the Allegheny River, including the sewage ejector station and the Verona pumping station. The present approximate area of such Zone 3 is indicated generally on Exhibit B attached hereto.

p. The term "Zone 1 extra charges" shall mean the extra sums, whether paid by water users as amounts added to the Project Z rates on their individual bills or paid in the aggregate by the affected Municipalities and by the Workhouse, which the Sewage

Agency shall compute as being reasonably required to yield, from all customers in Zone 1, Thirty-five and three-tenths Percent (35.3%) of the annual burden and coverage required for the Upper Allegheny System. Such annual burden and coverage shall consist of:

(a) the cost of operating and maintaining the Upper Allegheny System, and all administrative and other expenses in connection therewith,

(b) the interest on and the principal of all outstanding Upper Allegheny bonds and other Upper Allegheny obligations as the same become due and payable, and

(c) such reserves for such purposes as may be required by any resolution authorizing the issuance of such Upper Allegheny bonds or in any trust indenture securing the same.

q. The term "Zone 2 extra charges" shall mean the extra sums, whether paid by water users as amounts added to the Project Z rates on their individual bills or paid in the aggregate by the affected Municipalities, which the Sewage Agency shall compute as being reasonably required to yield, from all customers in Zone 2, Nine and three-tenths Percent (9.3%) of the annual burden and coverage required for the Upper Allegheny System, as defined above in subparagraph p.

r. The term "Zone 3 extra charges" shall mean the sums, whether paid by water users as amounts added to the Project Z rates on their individual bills or paid in the aggregate by the affected Municipalities, which the Sewage Agency shall compute as being reasonably required to yield, from all customers in Zone 3, Fifty-five and four-tenths Percent (55.4%) of the annual burden and coverage required for the Upper Allegheny System, as defined above in subparagraph p.

s. The term "Zone 1 rates" or "Upper Allegheny Zone 1 rates" shall mean the Sewage Agency's schedule of sewage service charges comprising the Project Z rates plus the Zone 1 extra

charges (either totalled or shown separately on the Sewage Agency's bills or tariffs, at the option of the Sewage Agency).

t. The term "Zone 2 rates" or "Upper Allegheny Zone 2 rates" shall mean the Sewage Agency's schedule of sewage service charges comprising the Project Z rates plus the Zone 2 extra charges (either totalled or shown separately on the Sewage Agency's bills or tariffs, at the option of the Sewage Agency).

u. The term "Zone 3 rates" or "Upper Allegheny Zone 3 rates" shall mean the Sewage Agency's schedule of sewage service charges comprising the Project Z rates plus the Zone 3 extra charges (either totalled or shown separately on the Sewage Agency's bills or tariffs, at the option of the Sewage Agency).

2. The City and the Sanitary Authority reaffirm their agreement of August 1, 1949, whereunder the City agrees to loan to the Sanitary Authority Two Million Dollars (\$2,000,000) for the preparation of detailed construction plans and specifications for the Project Z Sewage Disposal System; and in consideration of the undertakings of the Municipalities and the Workhouse hereunder the City and the Sanitary Authority hereby agree to modify and extend the facilities to the end that the Municipalities and the Workhouse shall receive sewage service from Project Z and the Upper Allegheny System, at the rates and under the conditions hereinafter set forth. The City and the Sanitary Authority each covenants with the Municipalities and the Workhouse to carry out its undertakings under said agreement of August 1, 1949, as thus amended to include the Municipalities and the Workhouse.

In no event shall the rights of the Municipalities or of the Workhouse under this Agreement be greater than the rights of the Municipalities in the original service area under the several Standard Municipal Agreements executed by them.

3. The City reserves the right, after

the plans and specifications to be prepared by the Sanitary Authority shall have received the final approval of the State Board, to designate the agency which shall construct and operate the Sewage Disposal System and the Upper Allegheny System. Such Agency, herein referred to as the "Sewage Agency," may be the City itself, the Sanitary Authority, a municipal Authority to be organized by the City, or any other agency having legal authority to construct and operate the Sewage Disposal System.

The parties agree that the rights given under this Agreement to the Sewage Agency are primarily given to the Sanitary Authority, for the benefit of the City, and that the Sewage Agency designated by the City, if other than the Sanitary Authority, shall be the assignee of the Sanitary Authority's rights. The Sanitary Authority agrees that the designation by the City of a Sewage Agency other than the Sanitary Authority shall constitute an assignment, by the Sanitary Authority to the Sewage Agency so designated by the City, of the Sanitary Authority's rights as Sewage Agency under this Agreement. If the designated Sewage Agency is the City, such assignment shall become effective automatically. If it is neither the City nor the Sanitary Authority such assignment shall become effective upon formal acceptance of this Agreement by the designated Sewage Agency. The Sanitary Authority further covenants to execute promptly, upon request of the City, a formal assignment of such rights to such designated Sewage Agency, though such formal assignment is not necessary. The Municipalities and the Workhouse recognize that performance of the duties imposed by this Agreement on the Sewage Agency will be substantially the same whether done by the City itself, the Sanitary Authority, an authority to be organized for such purpose by the City, or any other lawful agency, inasmuch as the personnel of the Sewage Agency during the extended life of this Agreement cannot be foreseen and would in any event not be selected by the Municipalities or the Workhouse and since the sewage service charges of the Sewage Agency,

as more fully hereinafter set forth, are limited to yield only sufficient revenues to meet administrative and operating expenses and the debt requirements hereinafter set forth. The Municipalities and the Workhouse therefore hereby specifically assent to any such assignment, and covenant severally to perform all acts and discharge all duties and obligations required of them under this Agreement, whether the Sewage Agency be the Sanitary Authority or any other agency designated by the City.

The City covenants that within a reasonable time after receiving an order or orders from the State Board to construct the Sewage Disposal System and the Upper Allegheny System, following final approval of the plans and specifications therefor, the City will by proper ordinance designate a suitable Sewage Agency to construct and operate the Sewage Disposal System and the Upper Allegheny System in accordance with this Agreement. Paragraphs 6—24 of this Agreement shall not be carried into effect until the City shall, by formal ordinance duly enacted, designate such Sewage Agency.

4. The Municipalities and the Workhouse understand that the undertakings, pursuant to this Agreement, of the Sanitary Authority to design and of the Sewage Agency to construct and operate the Upper Allegheny System are solely for the benefit of the Municipalities and the Workhouse, to enable them to comply with the orders of the State Board and in discharge of their legal duty to cease polluting the waters of the Commonwealth. The Municipalities and the Workhouse therefore agree to pay, in the manner hereinafter set forth, the cost of preparing detailed construction plans and specifications for the Upper Allegheny System and for design modifications of the Sewage Disposal System necessitated thereby, and to pay also, either alone or in conjunction with additional municipalities and other water users who or which may hereafter be permitted to use the Upper Allegheny System, the full cost of the construction, maintenance, operation, repair, reconstruction, improvement and ex-

tension thereof. Separate books of account shall be kept by the Sewage Agency showing in reasonable detail the items of cost or expense in connection with the Upper Allegheny System, including those relating to the Upper Allegheny bonds.

5. It is agreed that the cost of preparing detailed construction plans and specifications for the Upper Allegheny System and for modifications of the Sewage Disposal System necessitated thereby, is Twenty-seven Thousand Seven Hundred (\$27,700.00) Dollars, which the Municipalities and the Workhouse hereby covenant to pay to the Sanitary Authority as follows:

By Blawnox	\$ 6,200
By the Workhouse.....	2,000
By O'Hara	350
By Verona	13,000
By Penn	3,000
	\$27,700

Half the above allocated sums shall be paid within sixty (60) days after the execution of this Agreement and the remainder not later than February 1, 1953. Prompt payment of all said sums is hereby made of the essence of this Agreement, and failure of any Municipality or of the Workhouse to pay its share of the installment of Thirteen Thousand Eight Hundred Fifty (\$13,850.00) Dollars before the expiration of said sixty (60) day period shall release the Sanitary Authority, the City and the Sewage Agency from any obligation to provide sewage facilities for or sewage treatment service to the Municipalities or the Workhouse or to any of them and their respective inhabitants. Failure of any Municipality or of the Workhouse to pay its share of the balance of Thirteen Thousand Eight Hundred Fifty (\$13,850.00) Dollars on or before February 1, 1953, shall have the same effect.

6. The Sanitary Authority covenants with the City, the Municipalities and the Workhouse, and the City similarly covenants with the Municipalities and the Workhouse, that if it is designated by the City to be the Sewage Agency, it will well and truly perform all the acts and discharge all the duties and

obligations imposed upon the Sewage Agency by this Agreement; and that if it is not so designated, it will cooperate fully with the designated Sewage Agency and will assign to it, without charge, any rights and powers it may have in aid of the carrying out of the remaining provisions of this Agreement.

7. The City covenants with the Municipalities that the same duties and obligations which are herein imposed upon the Municipalities (except the payment of the sums required under Paragraph 5 hereof and except the payment of any sewage service charges in excess of the Project Z rates) will likewise be assumed and borne by the City.

8. The Sewage Agency designated and qualified pursuant to the provisions of Paragraph 3 of this Agreement shall

(a) promptly issue and sell Project bonds, in sufficient amount to pay

(1) the cost of constructing the Sewage Disposal System and placing the same in operation,

(2) all loans and advances heretofore or hereafter made to the Sanitary Authority by the City and the Federal Works Administration,

(3) all obligations incurred by the Sanitary Authority and by the Sewage Agency which are repayable out of such bond proceeds, and

(4) all other lawful requirements of the Sewage Agency in connection with the Sewage Disposal System, including, but without limitation, the cost of all lands, property, rights, easements and franchises acquired, financing charges, the cost of legal services, administrative expenses and all other expenses necessary or incident to the construction of the Sewage Disposal System and to the financing thereof;

(b) upon receipt of the proceeds of such Project Z bonds, proceed promptly and with due diligence in the construction of the Sewage Disposal Sys-

tem, with the privilege of awarding all or portions of the actual construction work under separate contracts to the lowest responsible bidder for each contract;

(c) concurrently with or promptly after the issuance and sale of the Project Z bonds, and after approval by the State Board of the plans and specifications for the Upper Allegheny System, issue and sell Upper Allegheny bonds, either as a part of the Project Z issue or as a separate issue, at the option of the Sewage Agency, in sufficient amount to pay

(1) the cost of constructing the Upper Allegheny System and placing the same in operation, and

(2) all other lawful requirements in connection therewith, including, but without limitation, the cost of all lands, property, rights, easements and franchises acquired, financing charges, the cost of legal services, administrative expenses and all other expenses necessary or incident to the construction of the Upper Allegheny System and to the financing thereof;

(d) upon receipt of the proceeds of such Upper Allegheny bonds, proceed promptly and with due diligence in the construction of the Upper Allegheny System, with the privilege of awarding all or portions of the actual construction work under separate contracts to the lowest responsible bidder for each contract;

(e) upon completion of the Sewage Disposal System and the Upper Allegheny System, intercept all sewage and wastes of the Municipalities and the Workhouse which are discharged from any Municipal or Workhouse outfall sewer located along the interceptor sewers of the Upper Allegheny System (subject to the provisions of Paragraph 9 of this Agreement), transport such sewage and wastes to its Project Z treatment plant, provide such treatment and disposal thereof as may be required by law, and operate the Sewage Disposal System and the Upper Allegheny System in an efficient and economical manner; and

(f) make such modifications of and additions to the Sewage Disposal System and the Upper Allegheny System as may be necessary to enable the Municipalities and the Workhouse to comply with any future lawful orders of the State Board or any other State or Federal Agency in respect of the treatment and disposal of their sewage and wastes which enter the Sewage Agency's interceptor sewers, and issue additional revenue bonds for such purpose or purposes; provided, however, that the Sewage Agency shall have the right to increase its Project Z rates and Upper Allegheny rates to such extent as will yield the additional revenue needed to meet all bond requirements and operating and other expenses incurred by the Sewage Agency in the design, construction, maintenance and operation of such modified or added facilities, and shall have the right to charge the aggregate thereof to the Municipalities and the Workhouse under the provisions of Paragraph 18 hereof.

The Sewage Agency shall have the right to enter upon and open such streets and public thoroughfares within the Municipalities and such vacant land owned by them, and to enter upon and open such land of the Workhouse, as may be necessary to install, construct, extend, repair and maintain the Upper Allegheny System or any part thereof; provided, however, that all pavements and underground structures disturbed in the course of such work shall be restored to substantially their original condition. No Municipal permit or license shall be required for any such work, and the Municipalities and the Workhouse hereby waive all fees and charges in connection therewith.

It is understood and agreed that the Sewage Agency shall indemnify and save the Municipalities and the Workhouse harmless from all costs and expenses (except those provided for in this Agreement), liability, claims and demands of any sort arising out of the construction, extension, replacement, operation, maintenance, repair or possession by the Sewage Agency of the Upper Allegheny System and the Sewage Disposal System.

9. Subject to the conditions herein after set forth, provisions will be made, in the plans and specifications to be prepared by the Sanitary Authority, for the connection with the Upper Allegheny System Interceptor sewers (shown generally on Exhibit B hereof) of all of the Municipalities' outfall sewers now in place therealong, and of the Workhouse's existing outfall sewer, and such connections will be made by the Sewage Agency without cost to the Municipalities or the Workhouse.

Every other outfall sewer now or hereafter used by any of the Municipalities or by the Workhouse shall be brought by them, respectively, to a point to be approved by the Sewage Agency (or, prior to the designation and qualification of the Sewage Agency, by the Sanitary Authority), in order that proper connection with the Sewage Agency's interceptor sewer may be made. Each such connection shall be made in such manner as the Sewage Agency shall direct, and at the expense of the Municipality or Municipalities involved, or of the Workhouse, as the case may be.

Each of the Municipalities agrees to furnish to the Sanitary Authority at its own expense all data, including plans, with respect to the number, size and location of all outfall sewers used by it and, as to each such sewer, the invert elevation at the outlet and the grade thereof for a distance of three hundred (300) feet back from the outlet thereof, and the Workhouse similarly agrees to furnish such information respecting its outfall sewer. If such data is not made available promptly, the Sanitary Authority shall have the right to examine and explore the sewer or sewers for the purpose of obtaining such data and shall charge the cost of such work to each Municipality involved, or to the Workhouse, as the case may be.

No existing or future outfall sewer into which flows a surface or sub-surface stream or the acid drainage of a coal mine shall be connected with the Sewage Agency's interceptor sewer. If any such outfall sewer is discovered by the Sanitary Authority, it shall no-

tify the affected Municipality or Municipalities (or the Workhouse) thereof in writing, and if such condition is not promptly remedied, no provision shall be made in the plans and specifications for the connection of such outfall sewer with the Upper Allegheny System. If any such condition occurs or is discovered after a connection has been made, and if the Workhouse or the affected Municipality or Municipalities do not divert and exclude such stream or acid drainage promptly after receiving written notice from the Sewage Agency to do so, the Sewage Agency shall have the right either to disconnect such outfall sewer from the Upper Allegheny System or to construct the necessary facilities to divert and exclude such stream or acid drainage and to charge the cost thereof to each Municipality involved or to the Workhouse, as the case may be. The Municipalities and the Workhouse hereby agree to pay such cost in such event.

10. The City and the Sanitary Authority reserve the right, prior to the designation of the Sewage Agency, and the City and the Sewage Agency shall have the right thereafter, subject to the approval of the State Board but without consulting or notifying the Municipalities or the Workhouse, to permit additional municipalities which are partially or entirely outside the enlarged service area to pump or drain additional sewage or wastes from territory outside such enlarged service area into the Sewage Disposal System and into the Upper Allegheny System for treatment and disposal by the Sewage Agency; provided, however, that no such permission shall be given unless an agreement similar to the Standard Municipal Agreement—or, if the sewage or wastes enter the Upper Allegheny System or any similar extra-rate system, unless an agreement similar to the present Agreement—shall be executed with the affected municipality or municipalities.

The City and the Sanitary Authority, or the City and the Sewage Agency, as the case may be, also reserve the similar right to enter into agreements with private or public firms or corpora-

tions within and without the enlarged service area for the treatment and disposal of their sewage and wastes which do not enter a municipal sewer; provided, however, that the service charges shall be at least as high as the Project Z rates or, if any such customer's wastes enter the Upper Allegheny System, at least as high as the applicable Upper Allegheny zone rates currently in effect.

11. The Municipalities and the Workhouse covenant and agree that the Sewage Agency shall be the sole and exclusive agency, during the entire life of this Agreement, to provide sewage treatment and disposal service to the territory of the Municipalities lying within the service area of the Upper Allegheny System (and to all their water users therein who or which discharge sewage or wastes into the Municipalities' sewerage systems) and to the Workhouse, and that they will not authorize or permit any other agency, public or private, to do so in competition with or in substitution for the Sewage Agency. The Municipalities hereby permit and authorize the Sewage Agency to impose upon and collect from all such water users its prevailing Upper Allegheny zone rates (or, in the event of the contingency set forth in Paragraph 18 hereof, its prevailing Project Z rates) for sewage service, and covenant to perform all the acts and discharge all the duties and obligations imposed upon them by this Agreement. The Municipalities further covenant that they will not themselves engage in the business of providing sewage treatment and disposal service to such water users.

12. For intercepting, transporting, treating and disposing of the sewage and wastes emanating from the added service area the Sewage Agency shall impose and collect sewage service charges under three schedules of zone rates, to be known as Upper Allegheny Zone 1 rates, Upper Allegheny Zone 2 rates and Upper Allegheny Zone 3 rates, applicable within Upper Allegheny Zones 1, 2 and 3 respectively, as such terms are defined in Paragraph 1 of this Agreement. Such rates shall become

effective immediately after the Sewage Disposal System and Upper Allegheny System have been completed and put in operation and shall continue in effect during the remainder of the term of this Agreement, subject to the Provisions hereinafter set forth.

13. For sewage service to the present premises of the Workhouse and to all existing and future structures thereon, the Workhouse covenants to pay promptly to the Sewage Agency the Upper Allegheny Zone 1 rates, which shall be applied: (a) to the quantity of water used in or on such premises, less credits for water, separately metered, which does not enter a Workhouse sewer; or, if the Sewage Agency's requirements for measuring such water quantity are not met, (b) to the quantity of sewage discharged from such premises into the Upper Allegheny interceptor. It shall be the obligation of the Workhouse to install and keep in good operating condition meters or other measuring devices satisfactory to the Sewage Agency, to measure such water or sewage. The billing period may be a month, a quarter year, a half year or a year, at the option of the Sewage Agency. The Workhouse shall promptly notify the Sewage Agency of the quantity of water used or of sewage discharged during the preceding billing period, and the Sewage Agency shall have the right to read and inspect such meters or other measuring devices for the purpose of determining or verifying such quantities. If for any reason the Sewage Agency shall fail to obtain or receive such information it shall have the right to estimate the quantity of water used or of sewage discharged and to calculate its charges upon such estimated quantity.

At least sixty (60) days before the beginning of each Workhouse fiscal year, the Sewage Agency shall provide the Workhouse with a written estimate of the total charges for sewage service which the Workhouse will probably be required to pay to the Sewage Agency during the ensuing fiscal year. The Workhouse covenants to provide annually in its budget for obtaining the necessary funds which, together with unused funds remaining from

prior years, will be at least 120% of such estimated amount to become due under this Agreement during such year, plus unpaid balances of prior years. Such sum shall be set aside by the Workhouse in a special account to be designated "Sewage Agency Fund," the moneys in which shall be used by the Workhouse to meet its obligations under this Agreement and shall not be used for any other purpose whatever.

Paragraphs 14 to 22, inclusive, of this Agreement shall not apply to the Workhouse.

14. The Sewage Agency shall, for the services and facilities furnished or to be furnished by it, impose upon and collect from the owner, tenant or occupant of each lot or parcel of land within the several Municipalities from which sewage or wastes enter a Municipal sewer and therethrough reach the Upper Allegheny System and thence the Sewage Disposal System (hereinafter sometimes called a "user" or "water user"), the Sewage Agency's applicable Upper Allegheny zone rates, which shall be based or computed upon the quantity of water used in or upon such lot or parcel as determined by gauging or metering or otherwise.

Each of the Sewage Agency's several schedules of Upper Allegheny zone rates shall be uniform throughout the applicable zone served by the Upper Allegheny System. Each schedule shall impose reasonable minimum charges, may include such block rates for metered water users and such charges for flat-rate water users as the Sewage Agency shall determine, and shall provide reasonable surcharges for commercial and industrial wastes which impose an extraordinary burden on the Sewage Disposal System. The schedules shall be adjusted from time to time in such manner as the Sewage Agency shall deem necessary or proper to insure the collection of adequate revenues to meet the financial requirements herein set forth.

In case any water user is not the owner of the premises in or on which the water is used, the Sewage Agency may also impose such sewage service

charges upon and demand payment thereof from the owner of such premises, so that if payment is not made promptly, a lien therefor against the premises served may be filed by the Municipality in which such premises are located, as assignee of the Sewage Agency delinquent accounts, as provided in Paragraph 19 of this Agreement.

15. Each of the Municipalities covenants that during such time as sewage service charges of the Sewage Agency are in effect it will not impose upon any person, firm or corporation, or upon any property, any rental, rate or charge whatever for the use of or for the privilege of using any Municipal sewer connected with the Upper Allegheny System, to the end that no person, firm or corporation shall be subject to both the Sewage Agency's service rates, as herein provided, and a Municipal sewer rental, rate or charge of any kind whatever excepting general real estate taxes, sewer connection and street opening permit or license fees, and special assessments imposed according to law upon property benefited by the construction of additional sewers, and excepting charges imposed on other municipalities for the joint use, maintenance or repair of a Municipality's sewer or sewers.

The provisions of this Paragraph shall not apply so long as the optional method of payment provided for in Paragraph 20 of this Agreement is in effect.

16. All Sewage Agency bills for sewage service shall be computed on the basis of the quantity of water used, whether measured by meter or by flat rate or otherwise, and whether the water is furnished by a Municipal waterworks system or secured from any other source.

The bills to be paid by each water user within the Municipalities shall be computed, subject to the provisions of Paragraph 18 hereof, as follows:

(a) Metered water customers—by applying the Sewage Agency's applicable schedule of Upper Allegheny zone rates then in effect to the quantity of water

delivered to each water customer during the preceding quarter year or other meter period, as measured by the most recent water meter reading:

(b) Flat-rate water customers—by applying the percentage set forth in the Sewage Agency's applicable schedule of Upper Allegheny zone rates then in effect to the flat-rate water bill;

(c) Users of water taken from a private water source or public stream—by applying the Sewage Agency's applicable schedule of Upper Allegheny zone rates then in effect to the quantity of water used as estimated by the Sewage Agency; provided, however, that if any such water user shall at his or its own expense install and maintain in good operating condition a meter or other measuring device of a type approved by the Sewage Agency, the amount payable by such water user shall be based upon the quantity of water used as so measured.

If the Municipality or other water supplying agency does not make available promptly to the Sewage Agency the necessary data for computing the sewage service bills of any water user, such water user shall be deemed to be a flat-rate water customer, and the sewage service bill for such water user shall be calculated in the same manner as for flat-rate customers, based upon the estimated flat-rate water bill such customer would have to pay.

There shall be no free services rendered by the Sewage Disposal System or by the Upper Allegheny System, and the Municipalities (or any department, agency or instrumentality thereof) and all public corporations, all charitable or non-profit institutions and all school districts and other political subdivisions shall pay for the use of the services and facilities thereof in accordance with the Sewage Agency's applicable established schedule of rates.

If any substantial portion of the water used regularly on any lot or parcel of land does not enter the Municipality's sewerage system, the owner, tenant or occupant of such lot or parcel may secure a reduction in the amount of the sewage service charges

to be paid by him, subject to the established minimum charges, by installing, at his own expense and subject to such regulations as may be prescribed by the Sewage Agency, a separate meter or other measuring device approved by the Sewage Agency for measuring the water so used, in which event the quantity of water so used shall thereafter be excluded in computing the sewage service charges to be paid by the owner, tenant or occupant of such lot or parcel.

In cases where the character of sewage or industrial wastes from any commercial, manufacturing or industrial plant, building or premises is such that it imposes a burden upon the Sewage Disposal System or the Upper Allegheny System in addition to the burden imposed by the average sewage, such surcharge shall be made therefor as the Sewage Agency shall deem to be fair and equitable to meet the additional cost of collecting, transporting, treating and disposing of such sewage or wastes; or the Sewage Agency may, if it deems it advisable, require the owner, tenant or occupant of such commercial, manufacturing or industrial plant, building or premises to pretreat such sewage or wastes in such manner as shall be specified by the Sewage Agency before discharging such sewage or wastes into the Municipality's sewerage system.

17. In order to enable the Sewage Agency to compute its sewage service charges based thereon, as provided in Paragraph 16 hereof, each of the Municipalities, if it operates its own waterworks system, shall furnish to the Sewage Agency, not later than the 15th day of the month following the month during which water bills are issued, a list or lists of all water meter readings and flat-rate water bills issued during the preceding calendar month together with the basis for each flat-rate water user's water bill, and shall include therein the meter readings of meters installed by water users taking water from a private water source or public stream. The Sewage Agency will request similar information from the private water company, municipal authority or other agency supplying water to any

water users within the Municipalities. If by reason of failure to obtain such data promptly the Sewage Agency is compelled to treat any water users as though they were flat-rate water customers, as further provided above in the said Paragraph 16, and in so doing is obliged to survey the premises of each such water user for the purpose of determining his or its flat-rate water status, the cost incurred by the Sewage Agency in making such survey or surveys shall be repaid to it by the Municipality in which such premises are located.

18. It is the intent of the parties to this Agreement that the extension to the Municipalities and the Workhouse of the privilege of receiving sewage service from Project Z shall in no event increase the sewage rates payable by water users within the original service area of the Sewage Disposal System. The imposition of the several Upper Allegheny schedules of zone rates upon individual water users as a means of collecting all costs and expenses relating to the Upper Allegheny System is resorted to for the convenience and at the request of the Municipalities. If, therefore, a court of competent jurisdiction shall determine that the Sewage Agency may not legally impose upon and collect from individual water users within the Municipalities higher sewage service rates than those payable by water users within the original service area of the Sewage Disposal System, then, in such event, the Project Z rates shall apply to individual water users throughout the enlarged service area, and the extra charges which would have been added thereto and included in the several Upper Allegheny zone rates in billing water users served by the Upper Allegheny System shall instead be totalled for each Municipality (and each other municipality, if any, using the Upper Allegheny System) and billed to the affected Municipality (or other municipality). In consideration of the services furnished by the Sewage Agency in constructing and operating the Upper Allegheny System and thus discharging the Municipalities' legal duty to cease polluting the streams of the Commonwealth, each of the Muni-

palities hereby covenants to pay such aggravated extra charges, and to provide for the payment thereof out of its current revenues, as provided in Paragraph 22 hereof, to the end that the Sewage Agency shall receive the Project Z rates plus the annual burden and coverage required for the Upper Allegheny System as hereinabove defined in subparagraph p of Paragraph 1.

19. The several schedules of sewage service rates to be imposed upon and collected from individual water users by the Sewage Agency during any year shall be so calculated and adjusted as to provide revenues which will be sufficient to meet all obligations required under this and other Agreements to be paid with the proceeds thereof during such year. It is understood by the Municipalities that not all bills for sewage service will be paid promptly, and that some of such bills in an indeterminate amount will become delinquent each year. In consideration of the services rendered by the Sewage Agency to the Municipalities under the provisions of this Agreement, which will effect compliance by the Municipalities with the duty imposed upon them by law to cease the pollution of the waters of the Commonwealth, and in further consideration of the assignment to them of the delinquent accounts, as hereinafter provided, each Municipality covenants to pay to the Sewage Agency, cut of its current revenues as hereinafter provided, the face amount of the delinquent accounts of all water users within such Municipality.

If any water user shall fail to pay the sewage service charges of the Sewage Agency within sixty (60) days after the due date of the bill therefor, the account of such water use shall be deemed delinquent. The Sewage Agency shall prepare and submit to each of the Municipalities, on or before January 1, April 1, July 1, and October 1 of each year, a list of all delinquent accounts applicable to it, showing the face amount of each account, the penalty thereon, and the interest accrued. Each of the Municipalities shall, within sixty (60) days after the furnishing of such list, pay to the

Sewage Agency the face amount of all such delinquent accounts. Upon receipt of such amount from the Municipality, the Sewage Agency shall promptly assign to such Municipality all such accounts, for the sole use and benefit of the Municipality.

The Sewage Agency agrees that the Municipalities shall have the right to pursue and enforce any and all remedies now available or hereafter to become available to them, to compel payment by any delinquent water user of the sewage service charges, together with penalties, interest and costs, which may be due and owing by him or it.

20. Each of the Municipalities shall have the option of paying the aggregate amount of all sewage service charges which, under Paragraphs 14-19 of this Agreement, would be payable by its water users, in consideration of the performance by the Sewage Agency of such Municipality's legal duty to cease the pollution of the waters of the Commonwealth. In such event, the individual charges of each water user shall be computed in the same manner as hereinbefore set forth, but instead of sending individual bills to all water users, all such individual bills shall be totaled for each Municipality and the aggregate amount thereof shall be billed quarterly to the Municipality. Each of the Municipalities covenants that so long as such method of payment is in effect it will pay each such quarterly aggregate amount, out of the Municipality's current revenues as hereinafter provided, within sixty (60) days after the date of the bill therefor. The Sewage Agency will refund to the Municipality, on or before April first of each year, as a credit for the saving in billing expense, a sum equal to the average cost per customer incurred by the Sewage Agency during the preceding calendar year for billing and collecting its charges from individual water users in all other municipalities within the enlarged service area of Project Z, multiplied by the average number of individual water users in the Municipality.

Before the Sewage Disposal System and the Upper Allegheny System are

completed and put in operation, the Sewage Agency shall request each of the Municipalities in writing to indicate whether it desires to adopt the optional method of payment provided for in this Paragraph. Unless the Municipality shall so indicate by ordinance duly enacted not later than ninety (90) days after the date of the Sewage Agency's written request, and shall promptly send to the Sewage Agency a certified copy of such ordinance, the method of payment provided for in Paragraphs 14—19 of this Agreement shall become effective.

No change in the method of payment applicable to any Municipality and its water users shall be made except at the request of the Municipality made by ordinance duly enacted, and with the approval of the Sewage Agency, formally given by ordinance or resolution.

21. If there exists any connection through which sewage wastes emanating from any territory outside the corporate limits of the Municipality enter the Municipality's sewerage system and thence reach the Sewage Agency's interceptor sewer, and if the municipality having jurisdiction over such territory does not execute an agreement with the Sewage Agency similar to this Agreement, the Municipality shall either promptly shut off or remove such connection or shall pay to the Sewage Agency, so long as such sewage continues to enter the Municipality's sewerage system, the estimated cost of collecting, transporting, treating and disposing of such sewage, such estimated cost to be approximately the same as if the water users within such territory were subject to the Sewage Agency's prevailing sewage service charges.

22. Each of the Municipalities shall annually provide in its budget for obtaining the funds necessary to meet its obligations under this Agreement. On or before October 1 of each year the Sewage Agency shall supply to the governing body of each of the Municipalities a written estimate of the total amount of delinquent accounts, or, if the optional method of payment is applicable to the Municipality, of the the

total aggregate amount of all sewage service charges, which the Municipality will probably be required to pay to the Sewage Agency during the ensuing fiscal year; plus, in either case, the estimated amounts (if any) due under Paragraphs 18 and 21 of this Agreement. Each of the Municipalities shall, by proper ordinance, promptly levy a special tax, or provide for obtaining revenues in any other lawful manner, or resort to any two or more methods of securing the funds required under this Agreement, in such manner as to assure that the Municipality shall obtain or collect during the ensuing fiscal year a sum which, together with any unused moneys remaining from previous years, will be at least 120% of such estimated amount to become due under this Agreement during such year, plus unpaid balances of prior years. The revenues collected from such tax levy or from any other sources so designated by the Municipality, or from any combination thereof which the Municipality may elect to employ, shall be deposited to the credit of a special fund to be designated "Sewage Agency Fund," the moneys in which shall be used by the Municipality to meet its obligations under this Agreement and shall not be used for any other purpose whatever.

If the entire amount due the Sewage Agency under this Agreement for any year is not paid out of the current revenues of the Municipality for such year the balance thereof shall be paid out of the current revenues of succeeding years.

23. The Municipalities and the Workhouse agree that if the schedules of sewage service charges in effect at any time do not, or in the opinion of the Sewage Agency may not, yield sufficient revenue to meet the Sewage Agency's financial requirements payable therewith, or if the Sewage Agency finds that any of such schedules has proved to be inequitable, the Sewage Agency shall have the right at any time and from time to time to revise and adjust its sewage service charges in such manner and to such extent as it may deem advisable.

At least sixty (60) days before any

revised schedule of sewage service charges shall become effective, the Sewage Agency shall submit in writing to each of the Municipalities affected thereby, and to the Workhouse, if affected, a statement setting forth the new schedule of sewage service charges and the reasons why it was found necessary or desirable to put it into effect. Such new schedule of charges shall go into effect at the time specified in said statement, not earlier, however, than sixty (60) days from the furnishing of such statement, unless suspended by a final decree of a court of competent jurisdiction.

24. The Sewage Agency shall have the right to promulgate, issue, publish and enforce rules and regulations governing its activities and carrying into effect the provisions of this Agreement. Such rules and regulations may include provisions prohibiting or regulating the discharge into the Municipalities' and Workhouse's sewerage systems of oils, acids and other substances which may be harmful to the Sewage Agency's sewers, pumping stations or other structures or which may interfere with the sewage treatment processes of the Sewage Agency's plant, as well as excessive amounts of surface or ground water.

Each of the Municipalities may, in its own discretion and without let or hindrance from the Sewage Agency, permit the connection with any Municipal sewer that discharges into a Sewage Agency interceptor sewer of any and all premises used wholly as private dwellings, but no permit shall be issued by the Municipality for the connection with any such sewer of any premises used wholly or in part for commercial or industrial purposes unless the application for such permit shall first have been submitted to and been approved by the Sewage Agency.

Each of the Municipalities recognizes that the carrying out by the Sewage Agency of its obligations under this Agreement will enable it to perform the duty imposed upon it by law to provide for the proper treatment and disposal of its sewage, and each of the Municipalities therefore agrees to exercise for the benefit of the Sewage

Agency all rights and powers which it may possess to carry into effect the purposes and intent of this Agreement. Each of the Municipalities agrees, on request of the Sewage Agency, to enact an ordinance incorporating all or designated portions of the Sewage Agency's rules and regulations and providing appropriate penalties for the violation thereof, to amend such ordinance from time to time as requested by the Sewage Agency, and to enforce the provisions thereof fully and prosecute all violators thereof diligently.

25. The provisions of this Agreement relating to the Municipalities collectively or indiscriminately shall apply to each of them severally and not jointly.

26. This Agreement shall become effective immediately, and shall remain in full force and effect, subject to the provisions of Paragraphs 3 and 5 hereof, until the date of expiration of the legal existence of the Sewage Agency or until the expiration of one calendar year following the payment in full of all bonds, notes and other obligations of the Sewage Agency, original and refunding, issued by it to finance the construction, replacement, maintenance and operation of the Sewage Disposal System and the Upper Allegheny System and additions thereto, whichever date shall be later.

Now, Therefore, The parties hereto agree as follows:

1. The Lessor hereby leases to the Lessee for the term of forty-one (41) years, and two (2) months, commencing on the 1st day of November, 1952, and ending on the 31st day of December, 1993, for the rental hereinafter stated, the following described premises in the City of Pittsburgh, Allegheny County, Pennsylvania:

(c) The City shall make available for the cost of the park the balance of the funds available to the City of Pittsburgh under the above-mentioned gift for the acquisition of the property and the construction of the park, but shall bear no further cost of the construction of the park.

4. This lease may be terminated by the City of Pittsburgh on thirty (30) days' notice to the Lessee for any one of the following reasons:

(a) In the event that the Lessee is unable to start construction of the public park and the public garage within three (3) years from the effective date of this lease for any reason,

(b) In the event that, after the completion of the parking garage, the said garage ceases to be used for public parking purposes.

5. It is agreed by and between the parties hereto that the Lessee may use the property in accordance with the terms and conditions and subject to the limitations set out in the Act of the Pennsylvania Legislature of June 5, 1947, P. L. 458, as amended, known as the Parking Authority Law.

6. Lessor agrees that if during the term of the Sublease of the demised premises to Mellon Square Garage, Inc., the entire premises or such substantial portion thereof as in the opinion of Mellon Square Garage, Inc., renders impracticable the continued operation of the parking facility described in said Sublease, shall be appropriated by eminent domain or otherwise seized, occupied, and used for a period extending beyond the term of said Sublease, Lessor, Lessee and Mellon Square Garage, Inc., shall each have the right to recover such damages or compensation as is provided by applicable law. If the amounts recovered by the Lessee and Mellon Square Garage, Inc., as damages or compensation shall be less than the unamortized cost of Mellon Square Garage, Inc., of the parking facility as shown on its books on the effective date of such condemnation, seizure or occupation, Lessor shall pay to Lessee, but only out of compensation or payment received by Lessor by reason of such condemnation, seizure, occupancy or use, the difference between the damages or compensation recovered by Lessee and Mellon Square Garage, Inc., and the said unamortized cost of the parking facility.

7. This Lease, upon execution, shall supersede the Lease between the parties hereto dated September 29, 1952.

8. This Lease is entered into on behalf of the City of Pittsburgh pursuant to Ordinance No. _____, approved _____, 1953.

In Witness Whereof the parties hereto have hereunto set their hands and seals the day and year above written.

Beginning on the easterly 5-foot line of Washington boulevard at a point distant 111.28 feet southwardly along the said easterly 5-foot line from the intersection therewith of the center line of the former Burpee street, sixty feet in width, said place of beginning to be known as Station 0+00; thence extending westwardly perpendicular to the easterly 5-foot line of Washington boulevard to a point of curve at Station 1+15.40; thence westwardly deflecting to the left by the arc of a circle, having a radius of 282.0 feet and a central angle of 53° 00', to a point of tangent at Station 3+76.26; thence westwardly by the tangent to a point of curve at Station 6+47.04; thence westwardly by the arc of a circle deflecting to the right, having a radius of 1482.0 feet and a central angle of 20° 36', to a point of tangent at Station 11+79.88; thence westwardly by the tangent to a point of curve at Station 19+18.98; thence westwardly by the arc of a circle deflecting to the right, having a radius of 1982.0 feet and a central angle of 13° 09', to a point of tangent at Station 23+73.87; thence westwardly by the tangent to Station 26+22.11, said point being at the separation of the west bound roadway to connect with Collins street and the east bound roadway to connect with Prince street.

The divisor between the roadways from Station 0+75 to Station 1+15.40, on the above described survey line, shall have a uniform width of 10.0 feet; from Station 1+15.40 to Station 3+76.26 a variable width ranging from 10.0 feet at the former to 4.0 feet at the latter mentioned point, and from Station 3+76.26 to Station 26+22.11 a uniform width of 4.0 feet and the center line of the divisor shall

coincide with the above described survey line throughout.

The roadways at the intersection of Washington boulevard shall each have a variable width and lie between the above described divisor and curves, each having a radius of 50.0 feet from points of curve on the westerly 16-foot curb line of Washington boulevard, 79.0 feet respectively north and south of the above described survey line at Station 0+59.0 to points of tangent perpendicularly opposite Station 1+09.0 on the above described survey line and 24.0 feet respectively north of the northerly line and 24.0 feet south of the southerly line of the above described divisor; thence to Station 26+22.11 the east bound and west bound roadways shall each have a uniform width of 24.0 feet, lying contiguous to and north of and south of the above described divisor.

The following described auxiliary survey line shall be used as a reference line to fix the width and position of the roadway, southerly berm and southerly sidewalk, and northerly sidewalk of the west bound portion of Negley Run boulevard to connect with Collins street, and to establish the grade thereof.

Beginning at a point perpendicular to and 14.0 feet north of Station 26+22.11 on the first above described survey line, said point to be known as Station 0+00 on the hereinafter described auxiliary survey line; thence westwardly parallel to and 14.0 feet north of the above mentioned tangent produced to a point of curve to Station 2+17.78; thence westwardly by the arc of a circle deflecting to the left, with a radius of 1420.0 feet and a

central angle of $12^{\circ} 11' 30''$, to a point at Station 5+19.93; thence westwardly by the tangent to the easterly 10-foot line of Collins street to Station 7+87.09.

The west bound roadway, from Station 0+00 on the above described auxiliary survey line thereof to Station 6+79.21, shall have a uniform width of 24.0 feet, the center line of which shall coincide with the above described auxiliary survey line; thence to Collins street, shall have a variable width, lying between the hereinafter described sidewalks.

The southerly berm from Station 0+00 to Station 6+79.21 shall have a uniform width of 4.0 feet, lying south of and contiguous to the above described roadway; thence to Collins street the southerly sidewalk shall have a uniform width of 10.0 feet, lying south of and contiguous to a curb line having a radius of 370.0 feet with the point of curve at Station 6+79.21 and the point of tangent on the easterly 10-foot curb line of Collins street.

The following described auxiliary survey line shall be used as a reference line to fix the width and position of the roadway, northerly berm and southerly sidewalk of the east bound portion of Negley Run boulevard to connect with Prince street, and to establish the grade thereof.

Beginning at a point perpendicular to and 14.0 feet south of Station 26+22.11 on the first above described survey line, said point to be known as Station 0+00 on the hereinafter described auxiliary survey line; thence westwardly parallel to and 14.0 feet south of the above mentioned tangent

produced to a point of curve at Station 0+07.66; thence westwardly by the arc of a circle deflecting to the left, with a radius of 1444.0 feet and a central angle of 10° 00', to a point of tangent at Station 2+59.69; thence westwardly by the tangent to a point of curve at Station 4+41.20; thence westwardly by the arc of a circle deflecting to the left, with a radius of 320.0 feet and central angle of 33° 49', to Station 6+30.07, said last mentioned Station being at the northerly terminus of Prince street.

III.

The City shall have the right and privilege to connect the drainage from eighty-nine (89) acres lying within the City and northwardly from the Borough to this sewer without charges or costs from the Borough.

VIII.

It is understood and agreed by the Borough that it shall not permit any other municipality, individual or corporation not located within the area

AN ORDINANCE—To provide revenue for the City of Pittsburgh for the year 1954 by imposing a tax upon the privilege of attending or engaging in amusements, including every form of entertainment, diversion, sport, recreation and pastime, requiring all persons, partnerships, associations and corporations conducting places of amusement to secure permits; imposing duties and conferring powers upon the Treasurer of the City of Pittsburgh; prescribing the method and manner of collecting the tax imposed by this ordinance, and imposing penalties for violation thereof.

The Council of the City of Pittsburgh hereby enacts as follows:

Section 1. That this Ordinance shall be known and may be cited as the "City Amusement Tax Ordinance."

Section 2. The following words and phrases when used in this ordinance shall have the meaning ascribed to them in this section, except when the context clearly indicates a different meaning:

"Amusement." All manner and forms of entertainment, including, among others, theatrical or operatic performances, concerts, moving picture shows, vaudeville, circus, carnival and side shows, all forms of entertainment at fair grounds and amusement parks, athletic contests, including wrestling matches, boxing and sparring exhibitions, football, basketball and baseball games, skating, golfing, tennis, hockey, bathing, swimming, archery, shooting, riding, dancing, and all other forms of diversion, sport, recreation, or pastime, shows, exhibitions, contests, displays and games, and all other methods of obtaining admission charges, donations, contributions, or monetary charges of any character, from the general public, or a limited or selected number thereof, directly or indirectly in return for other than tangible property, or specific personal or professional services. The term "amusement" shall not apply to actual par-

ticipation in sports where no fixed admission charge is paid.

"Association." Any partnership, limited partnership or other forms of unincorporated enterprise, owned by two or more persons.

"Treasurer." The Treasurer of the City of Pittsburgh.

"Established price." Regular monetary charge of any character whatever, including donations and contributions, fixed and exacted, or in any manner received by producers, as herein defined, from the general public, or a limited or selected number thereof, directly or indirectly, for the privilege of attending or engaging in any entertainment or amusement, provided that when such entertainment or amusement is conducted at any roof garden, night club, cabaret or other place where the charge for admission is wholly or in part included in the price paid for refreshment, service or merchandise, the amount paid for admission to such amusement shall be deemed to be fifty per centum (50%) of the amount paid for refreshment, service and merchandise.

"Person." Every natural person, co-partnership, association or corporation. Whenever used in any clause prescribing and imposing a penalty, the term "person" as applied to co-partnerships or associations shall mean the partners, or members thereof, and as applied to corporations, the officers thereof.

"Place of Amusement." Any place, indoors or outdoors, within the City of Pittsburgh, where the general public or a limited or selected number thereof may, upon payment of an established price, attend or engage in any amusement as herein defined, including, among others, theatres, opera houses, moving picture houses, amusement parks, stadiums, arenas, baseball parks, skating rinks, circus or carnival tents or grounds, fair grounds, social, sporting, athletic, riding, gun and country clubs, golf courses, bathing and swimming places, dance halls, tennis courts, rifle or shotgun ranges, roof gardens, cabarets, night clubs and other like places.

"Producer." Any person, as herein defined, conducting any place of amusement, as herein defined, where the general public or a limited or selected number thereof may, upon the payment of an established price, attend or engage in any amusement.

The singular shall include the plural and the masculine shall include the feminine and the neuter.

Section 3. (a) On and after the effective date of this ordinance, it shall be unlawful for any producer to continue to conduct, or thereafter to begin to conduct, any form of amusement at any permanent or temporary place of amusement, or any itinerant form of amusement, within the City of Pittsburgh, unless an amusement permit or permits shall have been issued to him, the fees paid therefor as now prescribed by law and the tax herein imposed paid in accordance with the provisions herein made.

(b) Every producer desiring to continue to conduct or hereafter to begin to conduct any amusement within the City of Pittsburgh shall file an application for a permanent, temporary or itinerant amusement permit or permits, as the case may be, with the Treasurer. Every application for such permit or permits shall be made upon a form prescribed, prepared and furnished by the Treasurer, and shall set forth the name under which the applicant conducts or intends to conduct a permanent or temporary place, or an itinerant form of amusement, the location of the permanent or temporary place of amusement, whether or not the applicant is the holder of a mercantile license in effect when the application is made, and, if so, the number of such license and such other information as the Treasurer may require. If the applicant has or intends to have more than one place of amusement within the City of Pittsburgh, the application shall state the location of each place of amusement, and in the case of itinerant form of amusement, the date and length of time such amusement is to be conducted at each place. In the case of an application for a permit for a

temporary place of amusement, the application shall state the name and address of the owner, lessee or custodian of the premises upon which such amusement is to be conducted. If the applicant is an association or a corporation, the names and addresses of the principal officers thereof and any other information prescribed by the Treasurer for purposes of identification shall be stated. The application shall be signed and verified by oath or affirmation by the producer, if a natural person, and in the case of an association by a member or partner thereof, and in the case of a corporation by an executive officer thereof, or some person specifically authorized by the corporation to sign the application, to which shall be attached the written evidence of his authority.

Upon approval of the application and payment of such fees as are now required by law, the Treasurer shall grant and issue to each applicant an amusement permit for each place of amusement within the City of Pittsburgh set forth in his application. Amusement permits shall not be assignable, and shall be valid only for the persons in whose names issued, and for the conduct of amusements at the places designated therein, and shall at all times be conspicuously displayed at the places for which issued. The producer of an itinerant form of amusement shall notify the Treasurer promptly of any change in the originally contemplated itinerary, either as to date or time of the conduct of the amusement at each place.

(c) The Treasurer may suspend or after hearing revoke an amusement permit whenever he finds that the holder thereof has failed to comply with any of the provisions of this ordinance. Upon suspending or revoking any amusement permit the Treasurer shall request the holder thereof to surrender to him immediately all permits or duplicates thereof issued to him, and the holder shall surrender promptly all such permits to the Treasurer as requested. Whenever the Treasurer suspends an amusement permit, he shall notify the holder immediately and afford him a hearing

if desired, and if a hearing has not already been afforded. After such hearing the Treasurer shall either rescind his order of suspension, or good cause appearing therefor, shall continue the suspension or revoke the permit.

Section 4. (a) For the calendar year 1954 a tax is hereby imposed upon the admission fee or privilege to attend or engage in any amusement at the rate of ten per cent (10%) of the established price charged the general public, or a limited or selected group thereof, by any producer for such privilege, which shall be paid by the person acquiring such privilege.

(b) In the case of persons admitted free or at reduced rates to any place of amusement, at a time when and under circumstances under which an established price is charged to other persons, the tax imposed by this ordinance shall be computed on the established price charged to such other persons of the same class for the same or similar accommodations, to be paid by the person so admitted. Provided, however, that children under twelve (12) years of age and disabled veterans who are admitted free of charge to any place of amusement shall not be required to pay the tax imposed by this ordinance.

(c) In the case of persons having the permanent use of boxes or seats in any place of amusement or a lease for the use of such boxes or seats in such place of amusement, the tax imposed by this ordinance shall be computed on the price charged for such boxes or seats or rental charged for the use of such boxes or seats in such place of amusement, such tax to be paid by the holder or lessee.

Section 5. (a) Producers shall collect the tax imposed by this ordinance and shall be liable to the City of Pittsburgh as agents thereof for the payment of the same into the City treasury as hereinafter provided in this ordinance.

(b) Where permits are obtained for conducting temporary amusements by persons who are not the owners, lessees or custodians of the places where

the amusements are to be conducted, or where the temporary amusement is permitted by the owner, lessee or custodian of any place to be conducted without the procurement of a permit or permits required by this ordinance, the tax imposed by this ordinance shall be paid by the owner, lessee or custodian of such place where such temporary amusement is held or conducted unless paid by the producer conducting the amusement.

Section 6. For the purpose of ascertaining the amount of tax payable by producers to the City of Pittsburgh, it shall be the duty of:

(a) Every producer, except as hereinafter provided, conducting a place of amusement, on or before the last day of each month to transmit to the Treasurer on a form prescribed and prepared by him a report, under oath or affirmation, of the amount of tax collected by him during the preceding month.

(b) Every producer conducting a temporary place of amusement, or itinerant form of amusement, shall file a report with the Treasurer or any duly authorized agent of his promptly after each performance.

All reports required under this section shall show such information as the Treasurer shall prescribe.

Every producer, at the time of making every report required by this section, shall compute and pay to the Treasurer the taxes collected by him and due to the City of Pittsburgh during the period for which the report is made. Provided, however, that such producer may deduct therefrom two per cent (2%) thereof, providing payment is made on or before the due date thereof. The amount of all taxes imposed under the provisions of this ordinance shall in the case of places of permanent amusement be due and payable on the last day of the next succeeding month, and in the case of temporary or itinerant forms of amusement it shall be due and payable on the day the reports in such cases are required to be made under this section, and all such taxes shall bear interest

at the rate of one per cent (1%) per month or fractional part of a month from the date they are due and payable until paid.

If any producer shall neglect or refuse to make any report and payment as herein required, an additional ten per cent (10%) of the amount of the tax shall be added by the Treasurer and collected.

Section 7. All such taxes shall be recoverable by the City Solicitor as other debts of like amount are now by law recoverable.

Section 8. All taxes, interest and penalties received, collected or recovered under the provisions of this ordinance shall be paid into the treasury of the City of Pittsburgh for the use and benefit of said City.

Section 9. The Council of the City of Pittsburgh hereby enacts as follows:

L. 507, as amended, and enumerated in Section 1 of said Act, owned, held or possessed by any resident, which as used in this Section shall mean any person, persons, copartnership or unincorporated association or company

resident, located or liable to taxation within the City of Pittsburgh, or by a joint stock company or association, limited partnership, bank or corporation whatsoever formed, created or incorporated by, under or in pursuance of any law of the Commonwealth of Pennsylvania or of the United States, or of any other State or Government, and liable to taxation within the City, whether such personal property be owned, held or possessed by such resident in his own right or as active trustee, agent, attorney-in-fact, or in any other capacity or by any resident as trustee, agent or attorney-in-fact jointly with one or more trustees, agents or attorneys-in-fact domiciled outside of the City where such personal property is held and managed in this City, except as executor or administrator of the estate of a non-resident decedent and except as trustee for a resident or non-resident, religious, charitable or educational organization, no part of the net earnings of which inures to the benefit of any private stockholder or individual, or for the use, benefit or advantage of any other person, co-partnership, unincorporated association, company, joint stock company or association, limited partnership, bank or corporation; and the equitable interest in any such personal property owned, held or possessed by any resident where the legal title to such personal property is vested in a trustee, agent or attorney-in-fact, domiciled outside of the City, or where the legal title to such personal property is vested in more than one trustee, agent or attorney-in-fact, one or more of whom are domiciled outside of the City, and one or more of whom are domiciled within the City, and such personal property is held and managed outside of the City, and where such resident is entitled to receive all or any part of the income therefrom. No failure to assess or return the same shall discharge such owner or the holder thereof from liability therefor. Provided that if the said County personal property tax, or law imposing the same is repealed, this shall not operate as a repeal of the City personal property tax or this ordinance, but the said City personal property tax shall con-

tinue until terminated by ordinance duly passed by Council of the City of Pittsburgh and approved as required by law.

Provided that the provisions of this section shall not apply to subjects excepted in said Act of 1913 as amended, and provided further that the provisions of this section shall not apply to personal property received, or acquired with proceeds of money or property received, before or after the effective date of this Ordinance, from any person or persons, co-partnership, or unincorporated association or company, non-resident in or not located within this City, or before the effective date of this Ordinance, from any person or persons, co-partnership, or unincorporated association or company, non-resident in or not located within this City on the effective date of this Ordinance, or from any joint stock company or association, limited partnership, bank or corporation formed, erected or incorporated by, under or in pursuance of any law of the United States or of any state or government other than the Commonwealth of Pennsylvania by any person or persons, co-partnership, unincorporated association, company, joint stock company or association, limited partnership, bank or corporation as active trustee, agent, attorney-in-fact, or in any other capacity for the use, benefit, or advantage of any person or persons, co-partnership or unincorporated association or company, non-resident in or not located within this City, or for the use, benefit or advantage of any joint stock company or association, limited partnership, bank or corporation formed, erected or incorporated by, under or in pursuance of any law of the United States or of any state or government other than the Commonwealth of Pennsylvania; nor shall the provisions of this section apply to personal property held for the use, benefit or advantage of any resident who shall have in each of the ten (10) preceding calendar years, given or contributed all of his net income to any corporation organized or operated exclusively for religious, charitable, scientific, literary or educational purposes.

Section 2. Returns and Assessments.

—For the purpose of ascertaining the amount of tax payable under this ordinance, it shall be the duty of every resident of the City of Pittsburgh liable to pay such tax to file a return of personal property. In order to eliminate the duplication which would result from the filing of a separate return for the City and a separate return for the County, the City of Pittsburgh hereby adopts the return filed with the Allegheny County Board of Property Assessment, Appeals and Review in compliance with the Act of June 17, 1913, P. L. 507, as amended, as a return for the City of Pittsburgh in compliance with the requirements of this ordinance, for the payment of a personal property tax by all persons subject thereto.

The assessments of personal property of residents of the City of Pittsburgh made by the County officials administering and collecting the County personal property tax, shall be used to determine the amount of tax due to the City of Pittsburgh under this ordinance. The assessments so made shall have the same force and effect as if the assessments had been made initially by the City of Pittsburgh and are hereby adopted for City tax purposes.

The term "assessments" as used herein shall mean the final assessments as adopted and used by County officials administering the County personal property tax after all petitions for reassessments, and appeals provided by law, have been finally determined.

The Mayor and the City Treasurer are hereby authorized to enter into an agreement with the proper county officials for reimbursement or payment to the County of the expenses incurred in the furnishing to the City by the County Board of Property Assessment, Appeals and Review, of the names and addresses of taxables within the City, the assessments made of their personal property subject to the tax and such other information as may be agreed upon. Such payments shall be made from funds appropriated by City Council.

Section 3. Payment of the Tax—

Taxes imposed by this ordinance shall be due and payable on May 1st of 1954. Taxes paid during the months of May, June and July shall be subject to a discount of 2% and if not paid within said months, shall be payable at face during August 1954. Taxes unpaid by August 31st shall be considered delinquent and shall be subject to a penalty of 5% of the face amount of the tax, and interest at the rate of $\frac{1}{2}$ of 1% per month until paid.

Section 4. Collection of the Tax—All taxes, penalties and interest imposed by this ordinance shall be paid to and collected by the City Treasurer. Delinquent taxes shall be recovered by the said Treasurer by suit in assumpsit or by such other methods as are authorized and allowed by law.

Section 5. Fines and Penalties—(a). Any person who shall make a false and fraudulent return or any person who fails or refuses to file any return containing the information required by this Ordinance shall upon conviction thereof before any alderman or magistrate, be sentenced to pay a fine of One Hundred Dollars (\$100), and, in default of payment of said fine, to be imprisoned in the Allegheny County Jail or Allegheny County Workhouse for a period not exceeding thirty (30) days.

(b) It shall be unlawful for any person or persons, co-partnership, unincorporated association, limited partnership, joint stock association, or corporation whatsoever, in loaning money at interest to any person or persons, whether such loans be secured by bond and mortgage or otherwise, to require the person or persons borrowing the same to pay the tax imposed thereon by this ordinance, and in all cases where such tax shall have been paid by the borrower or borrowers, the same shall be deemed and considered usury and subject to the laws governing the same.

(c)* As used in this section the term "person" as applied to associations shall mean the partners or members thereof, and as applied to corporations the officers thereof.

Section 6. Saving Clause.—If the tax or any portion thereof imposed

upon any of the personal property of any of the classes hereinbefore described under the provisions of this ordinance, or if any exception of any personal property of any of the classes as hereinbefore described from the imposition of the tax under the provisions of this ordinance shall be held by any court of competent jurisdiction to be in violation of the Constitution of the United States or of the laws of the Constitution of the Commonwealth of Pennsylvania, the decision shall not effect or impair the right to impose the taxes or the validity of the taxes so imposed upon the personal property of the other classes as hereinbefore described or to impose the taxes on the personal property so excepted.

Section 7. This ordinance is passed pursuant to authority contained in Act of Assembly No. 481, approved June 25, 1947 (Pamphlet Laws 1145), as amended.

Section 8. The provisions of this Ordinance shall become effective immediately upon final enactment.

God, in His infinite wisdom, has taken from our midst our friend and former colleague, William Alvah Stewart.

Born in Pittsburgh, he attended the local public schools. He was graduated at Amherst College and the Harvard Law School. He was admitted to the Bar in 1928 and taught in Duquesne University Law School from 1930 to 1941. He died at the early age of 49.

During his short span of life, he occupied many important positions of public trust. He served this City as Assistant City Solicitor from 1934 to 1938, when he was appointed an Assistant Solicitor for Allegheny County. On December 5, 1938 he was appointed City Solicitor by the late Mayor Cornelius D. Scully. In May, 1942, with the United States at War, he entered the service of his Country in the Air Force. He was later transferred to the Judge Advocate General's School at

Ann Arbor, Michigan, receiving the commission of Lieutenant Colonel. On January 4, 1946, he was elected to fill a vacancy in Council caused by the death of George E. Evans. He was subsequently elected by the people of Pittsburgh to that office, and on several occasions he served as Deputy Mayor during periods of absence or sickness of Mayor Scully.

While serving in Council he was appointed a member of the Urban Redevelopment Authority, where he played an important part in the redevelopment of Pittsburgh.

In recognition of his ability as a lawyer and of his service to the public, he was appointed by President Harry S. Truman a Judge of the Federal Court for the Western District of Pennsylvania. There he gave promise of becoming one of the most brilliant Judges in the Country. He served well until his death April 9, 1953.

In every public office, as a lawyer and as a Councilman, and finally as a Judge, he served the people with distinction and honor. At all times he gave of his talent, ability and energy unselfishly and with a conscientious devotion to the duties and responsibilities that were placed upon him.

He was an outstanding American citizen whose heart beat in harmony with the best traditions of his Country.

Judge Stewart will be long remembered by his fellow-citizens for the many difficult tasks which he willingly accepted and for his many contributions to the advancement of the public good;

Now, Therefore, Be It

Resolved, That the Mayor and the members of Council of the City of Pittsburgh express their deep sorrow at this passing, and that a copy of this resolution be sent to Mrs. Stewart and the sons of Judge William Alvah Stewart.
